EEC Overrides U.K. Veto on Prices

British Call Unprecedented Rebuff 'Change in Rules'

BRUSSELS - Britain was plunged into an unprecedented crisis in its relations with its partners in the European Economic Com-munity Thesday after EEC govern-ments decided to push through farm price increases in the face of British opposition.

After agriculture ministers from

seven governments cast the un-precedented vote here to overturn a British veto on the 1982-83 farm price increases, Britain announced that the basis of its nine-year mem-bership in the EEC had been al-

"They have changed the rules of the game," British Agriculture Minister Peter Walker said after emerging from what was described

the meetings, Mr. Walker had heated exchanges with many of his colleagues as seven ministers agreed to force through price incases averaging 10.5 per cent.

The end of a 16-year tradition imposed by France giving each country the right to veto important decisions will prompt a major review of Britain's relacons with the continent, Mr. Walker said. In London, British Prime Minister Margaret Thatcher said the vote was without precedent and would raise serious issues.

Denmark and Greece joined Britain in refusing to participate in the voting, arguing that member

gard this as a very sad and damag-ing day in the EEC's history."

States must retain their right of vately that they could adopt the same empty chair strategy used by France when it withdrew from and West German farm ministers. Edith Cresson and Josef Ertl, Mr. Walker said it was an impetuous decision which on reflection the majority of ministers would come

Mr. Walker refused to be drawn out on sanctions. A senior British official, however, in response to official, however, in response to speculation that his government would withhold cash from the EEC or even temporarily withdraw from EEC business, said "all the options are open." A Cabinet meeting on Thursday will discuss the way the terms of membership have been reasonizated the official have been renegotiated, the official

British officials were saying pri-

payments to the EEC budget ---which prompted the British veto remains unresolved. Foreign min-isters are due to make a renewed EEC affairs for six months in the 1960s. It was that crisis that prompted the so-called Luxembourg compromise giving each of the EEC members the right of veto in decisions in which they considered wital national interesis were at meeting early next week. In the long term, Britain would like the EEC budget reformed, cur-

ting farm spending and developing other policies so that it gets more But Mr. Walker's position back from the EEC budget. This, it brought an equally tough stance from West Germany, France and Italy, all of which defended the desays, would end its repeated and fiercely contested demands for budget refunds that have plagued EEC business for the past three cision to vote down Britain. Mr. Ertl accused Mr. Walker of cynicism in trying to block the farm price rises until it secured the EEC

NATO Ministers Support British; Endorse Reagan Missile-Cut Plan

By John M. Goshko Washington Post Service

The ministers ended their twoday spring meeting here as Soviet President Leonid I. Brezhnev, speaking in Moscow, replied to President Reagan's ouclear reduction plan by saying his country is willing to begin talks if the Umted States agrees to a freeze on strategic nuclear weapons.

speech drew a cautions reaction from Secretary of State Alexander M. Haig Jr., who repeated past U.S. rejections of the freeze idea, but added: "To the extent they're willing to get into the oegotiations

as early as possible, that's fine."

Mr. Haig spoke at a oews conference concluding the NATO meeting, which was dominated by hroad expressions of European support for the missile-reduction propsals put forward by Mr. Reagan on May 9 and European concern about the effects of Brit-

ain's confrontation with Argenti-

In regard to the Falklands, the communiqué reiterated opposition to the use of force to resolve disputes, and said: "The allies con-demn Argentina for its aggression against the Falkland Islands and deplore the fact that after more than six weeks she still has not withdrawn her forces in compliance with mandatory Resolution 502 of the Security Council."

This language gave a new boost in allied backing of Britain, which on Monday night found itself pressed to get its partners in the 10-naoon European Economic Community to extend sanctions against Argentina for an additional seven days.

With the exception of Ireland, EEC countries are NATO mem-Reports of Mr. Brezhnev's bers. When the request for renewed sanctions was considered by the EEC in a marathon session Monday, Italy and Ireland made clear their reservations but agreed to go along with the extension.

Italy was among the countries subscribing to the tough language directed against Argentina in Tuesday's communique. Both Mr. Haig and NATO Secretary-General Joseph Luns said they had oot heard a single word of criticism di-rected against Britain and its re-sort to military action in the South

On the arms-reduction issue, the ministers endorsed the idea of negotiations to eliminate U.S. and Soviet intermediate-range, land-based missiles and to make substantial reductions in intercontinental strategic nuclear systems.

Realistic Offer

The communiqué called the Reagan plan, which would make deep cuts in the U.S. and Soviet stockpiles of long-range ouclear warheads as well as missiles with the goal of bringing them down to equal levels, "a far-reaching but realistic offer."

Mr. Haig seized upon these points in responding to questions about the counterproposal made by Mr. Brezhnev Tuesday, but added: "It is our very firm conviction that ouclear freezes do oot promote effective arms cootrol." He cootinued, "It would codify Soviet advantages and leave the United States and the West at a disadvantage to join such a pro-

2 Defections Threaten Oversen Ser Israel Ruling Coalition

By William Claiborne

Washington Post Service

JERUSALEM — Prime Minister

Menachem Begin's ruling Likud

coalition was put in serious menachem begin's ruling Likud coalition was put in serious jeopardy Tuesday as two of its members defected to the opposition Labor Party on the eve of a crucial parliamentary vote of no confidence.

RANDSTAD while it was far from certain that the defections would bring down the Begin government Wednesday, the shifts put the Li-Wednesday, the shaker shaker kud coalition on even shaker ground and increased the likelihood of early national elections.

Despite desperate, eleventhbour attempts by Likud leaders to keep them in line, Knesset members Amnon Linn and Yitzhak Peretz quit over the party's failure to back them for political jobs and said they would vote against the government in Wednesday's noconfidence test.

If the opposition is joined by the three members of the rightist Tehyia (Renaissance) Party and Tehyia (Renaissance) Party and the two-member Telem Party, both of which have expressed dissatis-faction with the government, Mr. Begin's coalidon will almost certainly collapse and the prime minister will be forced to resign. In that event, and if the Likud and the Labor alignment are each unable to form a new government, a national election will be held in Is-

It was not clear Tuesday night how the two swing parties would vote in Wednesday's no-confidence test, although Yuval Nee-man, leader of the Tehyia Party, said the trend in his party is to force the collapse of the government. The Tehyia Party, which was formed by ultranationalist oppo-oents of the Egyptian-Israeli peace treaty, still is upset over the dismantling of Jewish settlements in the Sinal peninsula last month.

Leaders of the Telem Party said they were undecided how to vote

Labor Party Knesset members were cautious about predicting a is anxious for an opportunity to motion was mattention on the nomic failures.

broaden its base in a new election but is not eager to bring down the government if there is any likelihood that the Labor Party could form a government without going to a national election.

One Labor Knesset member Gad Yacobi, said, "I don't think we'll win Wednesday, but the steamroller has begun to move. He said further defections from Likud -- most likely from the liberal faction of the party — would inevi-tably result in an unraveling of the

With Tuesday's defections, the Labor alignment has 50 votes in the 120-member parliament and can count on four votes of the Democratic Front for Peace and Equality (Communist) Party and two votes of the centrist Shinni Party. Five votes from Tehyia and Telem parties would give the oppo-sition a total of 61 votes, or enough to bring down the govern-

The Likud bloc now has 46 Knesset seats, and can count on six more votes from its National Religious Party partner, four from the Agudat Israel Party and three from the Tami Party, giving the coalition only 59 votes.

If the two-member Telem Party, formed by the late Moshe Dayan in last year's election, abstains, the no-confidence motion would end in a 59-59 deadlock and Mr. Begin would not be forced to resign. If Telem voted with the government, the Likud would squeak by with a

one-vote majority. Compounding Mr. Begin's prob-lems, Avraham Meiamed, a National Religious Party Knesset member, said that if his vote is needed to break a tie, he will vote against the government.

The Labor Party's no-confidence motion was drafted in an almost desultory fashion. Party leader Shimon Peres conceded in a caucus Monday that the prospects of bringing down the government were small, but he argued that the purpose of the no-confidence motion was merely to focus public attention on the government's eco-

By R.W. Apple Jr. New York Times Service
LONDON — Britain's battle fleet has begun to move into as-sault formation in the South At-

lantic, informed military sources

reported Tuesday night, The sources said that Rear Adm, John F. Woodward, the task force commander, was gathering his ships into one group, with the am-phibious assault ships Fearless and Intrepid and smaller logisocal landing craft positioned for an attack on the Falkland Islands. Once the maneuver has been completed, the British force will be prepared to launch a large- or small-scale invasion if the word is given by Prime Minister Margaret Thatch-

Answering questions Tuesday afternoon in the House of Commons, Mrs. Thatcher said she expected a reply from Argentina within a day or so" to what is described in official circles here as a "take-it-or-leave-it" formulation of the British position. It was passed to the Argentines on Monday by Javier Pérez de Cuéllar, the United Nations secretary-general, to whom it had been outlined by Sir Anthony Parsons, Britain's delegate to the United Nations.

Ve cannot go on prevarieat ing," the prime minister said. "Argentina is trying to spin out occotiations. No military action can be held up in any way. To do so would be to give notice to the dictator"— Gen. Leopoldo Galtieri, the Argentine president.

'Very Merciful'

Mrs. Thatcher granted an impassioned request from the leader of the opposition Labor Party, Michael Foot, for a sixth emergency debate on the Falklands later this week. But she dismissed as constitutionally and practically unac-ceptable his demand that the house be given a chance to judge the Argentine response to Britain's negotiating terms well before any new military action was ordered.

The prime minister expressed confidence that the Commons would oot flinch from a settlement by force" of the Falklands

When a Labor Member of Parliament suggested that Mrs. Thatcher might seek a face-to-face meeting with Gen. Galtieri in a last-ditch attempt to avoid full-scale armed conflict with Argentina, she replied: "I'm a very merciful person. The answer is no, Sir."

Senior government officials made it clear that, from the British point of view, the biggest problem in the search for a peaceful settlement was not specific issues but the Cabinet's general lack of faith in the good will and bonesty of the Argentine junta. Mrs. Thatcher was said to doubt whether any undertaking by the junta could be safely relied upon,

She alluded to this feeling in the House, remarking that in six weeks of negotiation there had been no sign of Argentine willingness to conform with the requirements of UN Resolution 502, which called upon Buenos Aires to pull its troops out of the islands, which they seized after 140 years of Britthey seized after 149 years of Brit-ish rule on April 2.

The Cabinet met Tuesday morning in an emergency session, following a 90-minute meeting of the inner war Cabinet. Mrs. Thatcher and her ministers were reported to have reviewed such matters as the British order of battle, the weather in the South Atlantic and other factors that would influence the timiog of any move to oust the Argentines. The emphasis, participants said, was entirely on the mil-

'Atmosphere of Climax'

"The whole atmosphere is one of climax," a Thatcher aide assert-ed. An invasion would be ordered, he added, "when we are ready."

A few analysts suggested that Mrs. Thatcher's public comments and the private amplifications by her aides constituted part of a war of oerves designed to force the Argentines to give ground in the peace talks in New York. They compared what they described as her tactics of "brinkmanship" to those of the Argentine air force commander, Gen. Basilio Lami Dozo, who Tuesday threatened a large-scale air attack on the Brinsb fleet by his big force of land-based

For the second day running, there were no reports of significant military action. The Ministry of Defense said that a Sea King heliconter had ditched in the sea after a mechanical failure. The crew was said to have survived without iniu-

There were suspicions, however, that the ministry was withholding information on the fleet's activities and refusing to clear dispatches of correspondents on the aircraft carriers Hermes and Invincible. Mrs. Thatcher increased such specula-tion when she said, without explanadon, that while awaiting further developments at the United Na-"we are meanwhile increasing the military pressure on the Ar-

The ministry had no comment on the reports of Adm. Woodward's redeployment of its ships. It almost never confirms such moves.

Leonid I: Brezhnev, on national television, said the Russians welcomed Mr. Reagan's proposal to discuss arms limitations.

Brezhnev Accepts Offer Of U.S. Weapons Talks

weeks ago.

By Dusko Doder Washington Past Service

MOSCOW - President Leonid I. Brezhnev called Tuesday for a nuclear "freeze," declaring readiness to reach an accord with the United States that would either ban or severely restrict the development of all new types of strategic armaments.

Accepting President Reagan's proposal to resume strategic talks, Mr. Brezhnev said the freeze could be achieved "now, as soon as the talks begin," and that it would "facilitate" progress toward an even-tual "radical limitation and reduction" of nuclear weapons.

Speech Televised

But while he welcomed Mr. Reagan's proposal as a "step in the right direction," the Soviet leader warned that the "essence" of Mr. Reagan's approach to arms control "absolutely unilateral in nature" and "directly prejudicing" Soviet security interests.

[A White House spokesman, Larry M. Speakes, said the Reagan administration welcomed Mr. Brezhnev's willingness to negotiate strategic arms cuts but repeated U.S. opposition to a freeze on nuclear arms, Reuters reported from Washington.]

Without giving a detailed counterproposal, Mr. Brezhnev de-clared in a nationally televised speech that "it is oecessary to preserve everything positive" that had been achieved in earlier Soviet-American strategic arms limitation

The new talks, he added, "do not start from scratch but a good deal of far-from-useless work has already been done. This should not

The remark was interpreted by Western diplomatic analysts here as a clear indication that the Russians consider the 1979 Soviet-American strategic arms limitation agreement as the basic framework for the future oegotiations although they do not expect its ratification by Congress.

The insistence on preserving "everything positive" in that accord was interpreted as an indication that there was some room for compromise with the Reagan administration, possibly involving some part of the president's pro-

The 75-year-old Soviet leader appeared to have fully recovered from his recent illness. Addressing the opening session of a Young Communist League congress, he

He said "it was very important to effectively block all the channels for the continuation of the strategic arms race in any form and this means that the development of new types of strategic weapons should be either banned or restricted to the utmost" by agreements.
"We would be prepared to reach
agreement that the strategic arma-

ments of the Soviet Union and the United States are frozen already now, as soon as the talks begin. Frozen quantitatively. And that their modernization is limited to the utmost," he said. In his speech, Mr. Brezhnev for

the first time hinted openly that he was prepared to negotiate reduc-tions of intermediate nuclear missiles with China.

Negotiations in Geneva

GENEVA (NYT) - The chief negotiators of talks between the United States and the Soviet Union on limiting medium-range nu-clear weapons in Europe returned here Tuesday after a two-month recess. The first session of talks is expected to begin Thursday.

Reaganomics May Dominate Versailles Talks

Deficits, High Interest Rates Continue to Worry Allies

By Steven R. Weisman New York Times Service

WASHINGTON - Whenever anyone used to ask how soon he would be making his first major overseas trip, President Reagan had a standard semi-facetious reply. Traditionally, he said, American presidents travel abroad to escape their political headaches at home, and he hoped not to be compelled in that way.

But the nine-day European trip that Mr. Reagan plans in a little more than two weeks, his first extensive visit overseas as president, will hardly serve as a relief from the currents of political and economic dissatisfaction facing him in the United States.

At the economic summit at Versailles from June 4 to 6, in fact, many of the leaders of the six other major industrial nations of the West are likely to be as skeptical as many members of Congress over the deficits, high interest rates and the sluggish economic projections in the United States plaguing the administration all year

"Our task is to try to harmonize our objectives so that we help rather than hinder each other,"

France, the summit bost, said last March after meeting with Mr. Reagan. He did not have to add that his own efforts to stimulate the French economy had been undercut by American interest rates. Slightly Lower Rates

President François Mitterrand of

At a subsequent press confer-ence, the French leader warned that "we must achieve an improvement" in interest rates before or during the summit. Although rates have come down somewhat since those comments, it may oot be enough to satisfy Mr. Mitterrand and other European leaders. Indeed, even as Reagan has

been tussling with Congress on his budget in recent weeks, his aides have been quietly preparing a strategy to seek the confidence of the allies by using the same argu-ment that his program must be given a chance to work - and that given the chance, it will lead to economic recovery and lower interest rates in the second half of

At the 1981 economic summit in Ottawa, participants said, the president ably defused questions about Reaganomics by appealing for pahis own convictions. But just as that blend has worn a bit thin at home, so Mr. Reagan's aides fear it may prove less persuasive abroad The high interest rates threaten-

ing economic recovery in the United States, after all, also jeopardize

recovery in Canada and Europe. Along with the controversy over a growing trend toward trade protectionism, the nagging issue of interest rates is seen by summit planoers as the biggest threat, in turn, to the harmony of the summit itself. This is because the Europeans, like many U.S. economists, see Mr. Reagan's projected budget deficits as the biggest spur to high ipterest rates.

Informal Meetings

"I'd be very surprised if there weren't some discussion of American deficits at the formal sessions, or more likely outside them in the informal meetings," said Henry Owen, who was President Jimmy Carter's personal representative to the annual economic summits.

"But the discussinns will be pol-

tience and offering a mixture of ite, muted and not calculated to charm, humor and confidence in give offense," Mr. Owen added. Summit participants don't like to appear to be meddling in each other's affairs, and so the main emphasis is likely to be on getting interest rates down, oot on how it's

> The president's plans to assuage the allies received a major blow earlier this month, when negotiations with Congress failed to achieve the goal of a hipartisan accord to lower the federal deficit in the next three years. Administration officials now hope that Mr. Reagan will travel to the summit with a sense of momentum toward his program on Capitol Hill, so that he can say to the allies that deficits will be under control soon.

> "There's no question that Europe, Japan and Canada would feel much more confidence about the future if the hudget issue can be resolved here," said Robert D. Hormats, assistant secretary of state for economic and business affairs, and the lead staff planner for the summit.

The Versailles summit will be the eighth such annual conference (Continued on Page 6, Col. 1)

WORLD BRIEFS

Syria Rejects Charges in Paris Blast

PARIS — The Syrian Embassy Tuesday rejected accusations that Damascus was responsible for the terrorist bomb explosion off the Champs Elysées April 22 in which one person was killed and 63 were

The embassy statement appeared directed against Walid Abou Zahr, publisher of the Lebanese, anti-Syrian weekly Al Watan al Arabi. He was quoted Monday as saying that be had evidence linking Syria to the bomb explosion carried outside his newspaper's offices.

The embassy said that "At a time when one thought that reason and common sense would win over and would make it clear that Syria could in no way be involved in the rue Marbeuf attack, the same persons who had been throwing around untruth and unbelievable information are again getting bysterical."

Spanish-U.S. Treaty Talks Falter

MADRID - Last-minute difficulties over a new defense treaty between Spain and the United States have forced U.S. Secretary of State Alexander M. Haig Jr. to cancel a scheduled visit here Tuesday, spokesmen for both governments said.

A Foreign Ministry spokesman declined to give details of the difficulties but denied press reports that quoted sources close to the negotiations as saying the problems centered on U.S. use of the bases for operations with which Spain might not agree. Both sides are trying to produce agreement by Friday, when an extension to the present treaty expires. The treaty was last renewed in 1976.

Defense Rests in Spain's Coup Trial

MADRID - Spain's military trial of 32 officers and a civilian accused of staging an abortive coup last year entered its final stage Tuesday as

defense lawyers concluded their case. The hearing was adjourned until Monday but the verdicts and possible sentences are not expected until the end of this month or early in oext month. The prosecution has demanded sentences of 30 years in prison on charges of military rebellion for Lt. Col. Jaime Milans del Bosch, Maj. Gen. Alfonso Armada Comyn and Lt. Col. Antonio Tejero Molina, who commanded the Civil Guards who stormed the Madrid parliament Feb. 23 last year. Lesser sentences are being sought for the other

Defense lawyers have either denied that their clients plotted a coup or argued that they believed the operation had tacit support from King Juan Carlos I. Io the case of junior officers, they have argued that their elients were obeying orders. The coup attempt failed when the king disowned and denounced it.

Iranians Protected in U.S. Case

WASHINGTON - The Supreme Court Tuesday supported the State Department's refusal to tell a oewspaper whether two prominent Irani-

ans held U.S. passports.

The Washington Post made the request under the Freedom of Information Act in September, 1979, when Iran was in revolutionary ferment. The State Department refused on grounds that anti-American feeling there could endanger the lives of Iranians known to hold U.S. passports.

The Post requested State Department documents indicating whether the Iranians, Ali Behzadnia and Ibrahim Yazdi, held valid U.S. passports, Mr. Yazdi had been foreign minister under Mehdi Bazargan, who beaded the provisional government formed after the shah's regime collapsed. Mr. Behzadnia had beld a high post in the Ministry of Nation-

Chinese Floods Begin to Subside

HONG KONG - Last week's floods to the north and west of Canton have begun to subside, leaving at least 430 dead, 1.1 million homeless and 750,000 acres of farmland inundated, the Chinese news agency re-

The torrent also washed away 25,000 tons of stored food, destroyed 114 reservoirs, damaged 136 small power stations and wrecked 248 bridges. Most of the deaths were caused by collapsing houses in the Shaoguan area, about 100 miles (160 kilometers) north of Canton, and in Zhaoqing prefecture, about 50 miles west of the provincial capital.

POLISH PATROL - In a photograph made May 12, riot police patrol central Warsaw for the second consecutive day as farmers celebrated the first anniversary of Rural Solidarity.

U.S. Jury Finds Rev. Moon Guilty Of Avoiding Taxes on \$162,000

By Paul Scrafini

The Associated Press
NEW YORK — A federal court jury bere Tuesday found the Rev. Sun Myung Moon guilty of conspiracy to evade taxes on about \$162,000 in personal income and of filing false returns for the years 1973 through 1975.

Mr. Moon, the 62-year-old evan-gelist and businessman who built his worldwide Unification Church into a multimillion-dollar organization, displayed no emotion as the verdict was read. He could be sentenced to a prison term of 14

The jury of 10 women and two men delivered the verdiet in U.S. District Court in Manhattan after deliberating for nearly four days following a six-week trial.

Takeru Kamiyama, 40, a top aide and co-defendant, was convicted of aiding in the tax evasion conspiracy and of 10 substantive charges involving obstruction of justice through lying and submis-sion of false documents to block the tax investigation.

The conspiracy stems from about \$112,000 in interest earned on \$1.6 million in deposits at the Chase Manhattan Bank in accounts under Mr. Moon's name the Moon camp. There have been

and from \$50,000 worth of corpo-rate shares Mr. Moon received without paying for them and fail-ing to declare then as taxable. The government maintained that the assets were Mr. Moon's

personally and be failed to declare them. The defense unsuccessfully sought to establish that the assets. although in Mr. Moon's name, belonged to the church.

Until Tuesday's verdiet, Mr. Moon and his followers had won a series of court victories, the most recent of which was a unanimous state ruling declaring the Unificatioo Church to be a genuine religicus organization entitled to tax

Before that, the U.S. Supreme Court struck down a Southampton ordinance that barred Moon followers from door-to-door soliciting. The high court also ruled in another case that a church member could sue under federal civil rights law for being kidnapped "deprogrammers."

The Unification Church is best known for its youthful followers, nicknamed Moonies, who seek converts on city streets. Parents of some Moonies claim that they were brainwashed and lured into

kidnappings of some followers by parents who sought to have them deprogrammed.

The church claims three million members throughout the world, 30,000 of them in the United States, It has invested money in a variety of ventures, including a fishing fleet in Gloucester, Mass., and property in New York City and suburban areas.

When the trial opened April 1, prosecutor Martin Flumenbaum declared that the case was about taxes and fraud. He said Mr. Moon tried to hide \$112,000 in interest on \$1.6 million deposited in personal accounts in 1973, 1974

He said an additional \$50,000 on which taxes were evaded were carned in 1973 when Mr. Moon formed an import-export company and subscribed to \$50,000 worth of its stock, for which the church

A prosecution witness, Michael Y. Warder, a former church member, testified that when he asked whether money from accounts in Mr. Moon's name could be used for a church project, he was told: That's father's money. That is not

British Urge Pope Not to Cancel Trip

U.K. Catholic Leaders Carry Pleas to Pontiff

By Leonard Downie Jr.

Washington Post Service LONDON - Roman Catholic Church leaders here are making an impassioned plea to Pope John Paul II not to cancel his scheduled visit to Britain at the end of this month because of the undeclared war over the Falkland Islands.

Prime Minister Margaret Thatcher also said Monday night in a radio interview that she hoped "very, very much" the pope would still come to Britain. "So many people are looking forward to it, she said. "So many people have made endless effort to see him and

to organize things for him." Church leaders fear the pope will decide this week to cancel the six-day visit from May 28 through June 2 unless there is an unexpected breakthrough in negotiations at ic settlement. As sporadic combat continued in the South Atlantic and a British counter-invasion of the Falklands appeared imminent, the pope said Sunday at the Vati-can that "the context [of the visit] can only be one of peace and

screnity. In a last-minute attempt to change his mind, the archbishops of Liverpool and Glasgow were sent to Rome Monday to argue that the pope could still come to Britain if he also announced he would visit Argentina as soon as possible, according to Cardinal Basil Hume, Catholic primate for England and Wales. They were received by the pope Tuesday.

Movement Toward Unity

Cardinal Hume said the archbishops also hope to impress the pope with "the degree of disap-pointment" among all Britons about the prospect of cancellation of the first papal visit to Britain since King Henry VIII broke with Rome in the 16th century. The visit had been envisioned by both Catholic and Anglican church leaders as an important symbol of their growing movement toward

Christian unity.

A Gallup poll published in Sunday's editions of the Sunday Telegraph showed that two of three Britons want the pope's visit here to go ahead as scheduled. Those favoring continuation of the visit favoring continuation of the visit included 77 percent of the Catho-lics polled and 62 percent of Church of England members. Catholics represent about 10 per-

cent of the population.

Cardinal Hume told a group of American reporters here Monday that this desire also has been reflected in heavy mail received by him, other eburch leaders, Catholic publications and Britain's national newspapers. He said Catholics who have been preparing for the visit for two years will feel "great frustration" if it is canceled.

Pointing out that they blame Argentina for causing the hostilities that may be the cause of a cancellation of the papal visit, Cardinal Hume said. They feel if the pope doesn't come, that he is punishing English Catholics."

"I find myself torn," said Cardi-nal Hume, who spent four hours at the Vatican last Monday trying to persuade the pope to make the vis-it. "On balance, I believe the pope should come. This is a pastoral visit. That is what many Catholics say — this is a pastoral visit that should not be canceled for politi-

Catholic church sources here said they believe the pope is being advised to stay away from Britain by aides in the Vatican who are in close contact with the church in South America.

Cardinal Hume said be doubted that British bishops would try to reschedule the papal visit because of money problems. More than \$14 million has been spent on the visit so far, and about \$5 million is not covered by insurance if it is canceled. Church leaders said it would be difficult to raise all that money again and impossible to ob-tain insurance for another visit.

Man to Be Tried for Attack

LISBON (UPI) — Juan Fer-pandez Krohn, 32, will stand trial on charges of trying to murder the pope, but the proceedings may not begin for as long as six months, police said Monday.

Guinea Bissau Cabinet Shuffled by President

LISBON - Guinea Bissan's President João Bernardo Vieira has taken over the armed forces and interior ministries in a major Cabinet shuffle, Portuguese state

radio reported Tuesday.
Victor Saude Maria, until now vice president of the Council of the Revolution and foreign affairs minister, becomes premier, a post vacant since President Vicira seized power in a 1980 coup and ended plans for unity with the Cape Verde Islands. Samba Lamine Mane was named foreign af-

Weapons May Be Key To Tactics of British In Falklands Dispute

By Drew Middleton New York Times Service

LONDON - British tactics in what senior officers regard as the critical week of the Falkland Islands operation will be dictated as much by weapons, both Argentine and British, as any other military

factor. NATO analysts deduce from this that further British attacks. which they expect to range from more commando descents on isolated Argentine positions on both

NEWS ANALYSIS

East and West Falkland to a major landing on the eastern island, will be carried out under conditions that ensure adequate cover and avoid the main Argentine forces.

British commanders, one source said, would be wary of exposing either troops or aircraft to fire from Argentine surface to air missiles heavy mortars and field guns. The Argentine marines, who make up part of the islands' garrison, nor-mally are equipped with the Ban-tam anti-sircraft missile but the number that are deployed is not

New Torpedoes Deployed

Harrier raids have brought to action a number of 30mm anti-aircraft guns around Stanley airfield although, so far, these have been relatively unsuccessful against

Concern about the danger from Argentine submarines has led the British to deploy the new Stingray torpedoes considered by military specialists as one of the most sopisticated in service with any na-

tion.

The Stingray can be carried by the Nimrod long-range reconnaissance aircraft that are now reported to be operating in the combat zone. The Stingray locates its prey by means of sonar buoys, hydrophones and an on-board computer.

Naval specialists regard the
Stingray as potentially more effective than the anti-submarine weapons aboard the ships of the British task force. But it has oever been tested in combat conditions.

Yet there are some veteran naval officers, at NATO headquarters as well as in London, who believe that Britain's primary weapon in the expected engagements will be the Vickers 4.5-inch gun and its 50pound shells.

These shells brought about the surrender of the Argentine forces on South Georgia Island and, more recently, they apparently prevented the garrison on Pebble Island from intervening against the successful foray by British com-

mandos. Supporters of the gun, designated Mark 8, argue that its capacity of 25 shells a minute, its relative freedom from breakdown and the simplicity of operation could make any landing or break any coun-

Five ships of the task force, Coventry, Glasgow, Arrow, Alacrity and Antelope, are armed with the guns. The Mark 6, a twin-barreled predecessor, is mounted on two destroyers, Antrim and Glamorgan and the frigates Plymouth and

Yarmouth. British planners assessing the Argentine position believe that their best weapons are the five Super Etendard French-built naval fighter-bombers and the four remaining Exoce they can carry. nining Exocet missiles which

Argentina's best means of doing serious damage to the task force is the Exocet, naval sources agree, It was an Exocet that eliminated the destroyer Sheffield. But the missile's successful employment will be possible, the sources said, only if the air force is prepared to make the diversionary attacks that will allow a Super Etendard to approach unreported and loose its

The commanders on the task force, one source said, consequently have to regard every Argentine sortic as preparation for a more lethal operation by Exocet mis-

The consensus among informed military sources is that a major landing — the word "invasion" is avoided — is unlikely to take place until later in the week and then only if the negotiations at the United Nations break down. But operations may be conducted against the small landing strips that dot the islands, they said.

Recent operations have demonstrated that the small airstrips have been used by the Argentines to handle light aircraft bearing supplies. In this sense, a British source conceded, the blockade is not complete, although he pointed out that the payload carried by small air-craft would be of minimum benefit to a garrison estimated at 11,000

Merchantmen running the blockade would be of greater value to the Argentines. One tried to slip into Stanley on Monday and was immediately shelled by a British blockader. An analyst could not explain how it had evaded radar

Activists Push Draft Of Anti-Torture Pact

By Iain Guest al Herald Tribun

GENEVA -- To the British goveroment, which is holding him in detention, Capt. Alfredo Astiz is a political embarrassment. But to in-ternational lawyers here, he may aid in efforts to make torture an

Capt. Astiz was commander of the Argentine forces on South Georgia, which surrendered to the British April 25, and was the only Argentine prisoner not repatriated last week. He is wanted for questioning by Sweden and France, in connection with the unexplained death in Buenos Aires in 1977 of a Swede, Dagemar Hagelin, and the appearance of two French nuns who worked with relatives of miss-

After thumbing back through their records, international lawyers here agreed that the case has revealed at least two major loopholes in the 1949 Geneva conventions, which are the bedrock of humanitarian law and have been signed by Argentina and Britain.

But they also feel that it could have a dramatic effect on the long efforts to draft a convention that would make torture an internadonal crime. It was Sweden that took the imitiative, in 1978. The drafting is nearing completion, but the convention suffers from a weak implementing procedure, and a shortage of concrete legal pre-

Officials at the International Committee of the Red Cross agree that on a narrow reading the 1949 conventions are clear: Capt. Astiz is a prisoner of war, and POWs need divulge only their name, rank and date of birth. Nor can they be transferred to a third party.

Officials were less clear about whether the British can allow French and Swedish officials to interview Capt. Astiz while he remains in British custody. They were also uncertain to what extent torture and kidnapping, such as occurred in Argentina after the 1976 coup, are violations of the

All four 1949 conventions outlaw the maltreatment of civilians, even in a "noninternational armed conflict," and this was further spelled out in the 1979 addition of protocol But the question is whether the unrest in Argentina

Spanish Villagers Make Threat to Lynch 'Anti-Pope' Reuters
SALAMANCA, Spain — Hundreds of villagers nearly lynched a self-proclaimed Roman Catholic

anti-pope Monday night at the shrine where St. Teresa of Avila is buried at Alba de Tormes, near here, its parish priest said Tuesday.

During a rumpus lasting several hours, the church bells were rung in alarm and a threatening crowd gathered around an ultraconservative cleric who has proclaimed that

the church is in heresy and has set himself up as "Pope Clement." The crowd threw his car into the River Tormes and destroyed another car in which eight of his "bishops" had traveled to Alba de Tormes from the small sect's headquarters in Troya, southern Spain. according to the parish priest and the acting mayor of the village.

Schmidt Endorses Plan for New Tank

BONN — Chancellor Helmut Schmidt has told French President François Mitterrand that be wants to pursue plans for a Freneb-German battle tank despite strong opposition in the Bonn parliament, according to a government spokes-

· The chancellor told Mr. Mitterrand during weekend talks in Hamburg that he wanted to go ahead with the definition phase of the project, agreed upon in 1980 with former President Valery Giscard d'Estaing, the spokesman said

But Mr. Schmidt also informed the French leader about criticism the project has met in parliament. and no new deadline was set for a final West German decision, the spokesman added. Experts in the three major West German parties have branded the plan to build a joint main battle tank for the 1990s financially extravagant and militarily unnecessary.

also are being wooed by House Democratic leaders, and therefore are becoming the beneficiaries of a bidding war.

Sugar price supports, favored by Southern Democrats, and assistance on home beating fuel, fovored by moderate Republicans, might be bargaining chips in the House fight to win support for cuts in

Republican Sen. Pete V. Domenici of New Mexico, chairman of the Budget Committee and the leading advocate of Social Security savings to assure the solvency of the system, acknowledged on Monday

that his proposal probably would oot survive election-year politics. The budget resolution proposed a three-year savings of \$40 billion, to he achieved either through reduction in benefits or new taxes. Sen. Domenici and his Republican colleagues on the Budget Commit-tee contended that since Social Security taxes had been increased last January and another increase would take effect next year, the savings could best be achieved through reductions in benefits.

"Probably we don't have the votes for precisely what is in the budget resolution," Sen. Domenici said. "It probably cannot pass." He said Senate Republican lead-

ers were working on an alternative proposal, and "hopefully it will be bipartisan and with White House

House Republican leaders, meanwhile, held a daylong meeting with representatives of all factions of their own party as well as chiatrist who testified last week tions of their own party as well as with conservative Democrats in an effort to fashion an alternative to the budget adopted last week by the Democratic-controlled Budget Committee. David A. Stockman, director of the White House Office of Management and Budget, was the only White House aide to attend the meeting.

"I don't expect in the end to get the full endorsement of the presi-dent on what we may fashion," said Rep. Robert H. Michel of Illi-nois, the House Republican leader. "I do not want to lock my president into something be might not embrace." Rep. Michel said Monday he hoped that Social Security would be included in the budget without the savings sought by the Senate Republicans.

Republicans Use Carter Look-Alike On TV to Link Democrats, Inflation New York Times Service

in one scene a lawyer reads a will, as actors who resemble former President Jimmy Carter and House Speaker Thomas P. O'Neill Jr. look on The lawyer recites, "To Ronald Reagan we

The theme of the 30-second commercial spots in almost 100 markets is that "Republicans are beginning to make things better." In one commercial a family leaves for a vacation while a voice proclaims this has been made possible by Republicans cutting the rate of inflation. Aside from the reference to recession, the

ads do not mention unemployment.

Rep. Tony Coelho of California, chairman of the Democratie Congressional Campaign Committee, denounced the messages as a "be," saying the economy had been growing when Mr. Carter left office. He sent telegrams to television networks and station

managers warning them against the commercial. Rep. Guy Vander Jagt of Michigan, chairman of the National Republican Congressional Committee, said a poll taken for his committee showed that "two out of three Americans today correctly identify the recession as Jimmy Carter's recession and not Ronald Reagan's." The campaign is paid for by Rep. Vander Jagt's committee and the Republican National Committee. Future advertisements, some almost ready to go on the air, will deal with such subjects as Social Security, agriculture and unemployment,

Parents of John W. Hinckley Jr. outside court in Washington.

Trial of Hinckley Pits Lawyers, Psychiatrists

By Stuart Taylor Jr.

New York Times Service WASHINGTON - The trial of John W. Hinckley Jr. began set-tling into a struggle between op-posing teams of lawyers and psythat Mr. Hinckley was insane when he shot President Reagan.

Roger M. Adelman, the prosecutor, suggested in cross-examination Mooday that Dr. William T. Carpenter Jr. had unwittingly helped John W. Hinckley Jr. to feign in-sanity by "planting ideas in his head" concerning the symptoms of

Mr. Adelman also implied that the 26-year-old defendant had gradually embellished his account of having bizarre thoughts and experiences, after the psychiatrist had shown him detailed clinical descriptions of the symptoms of schizophrenia.

"Each time you talked to him he added a little bit more for you,"
Mr. Adelman contended to the psychiatrist, in questioning him about Mr. Hinckley's description of visiting young prostitutes in New York, after the fashion of the protagonist in the film "Taxi Driv-

'Basic Drive'

Dr. Carpenter assented, but he denied Mr. Hinckley bad feigned insanity at any time, and stuck by his diagnosis that Mr. Hinckley was driven by a disease called "process schizophrenia" when he pulled the trigger on March 30, 1981.

The psychiatrist also reiterated that the "basic drive" that moved Mr. Hinckley to shoot the president was to achieve "a magical un-ion with Jodie Foster and the termination of his existence." He said Mr. Hinckley had told

him that after firing six shots in the direction of the president, and perhaps diverting his aim toward the himousine, he "dropped the gun, fell to his knees and waited to be blasted." Miss Foster is a film actress with

whom Mr. Hinckley was obsessed and to whom he addressed a letter the day of the shootings about a plan to "get Reagan" so as to gain her "respect and love."

Dr. Carpenter rejected Mr. Adelman's suggestion that his diagnosis had been tainted by his niethod of interviewing the defeodant over the last year, and by the fact that the basis for his diagnosis were what the defendant had sold him and his voluminous writings before the shootings.

Good Grades

He also said the fact that Mr. Hinckley had not acted "in a bizarre manner" or seemed crazy to other people immediately before or after the shootings, or at any other time, was "compatible with a diagnosis of schizophrenia."

Mr. Adelman extracted concessioos from the psychiatrist that Mr. Hinckley had been able to get some good grades in college, to write and speak coberently and intelligently, to bold down a job as a bushoy, and to travel about the country with no outward signs of meotal illness up to the time of the

But Dr. Carpenter defended bis diagnosis by saying the defeodant had been "partly in touch with reality and partly out of touch with reality at the same time."

He acknowledged, in response to Mr. Adelman's questions, that none of the seven other psychiatrists who had examined the defendant at length had diagnosed Mr. Hinckley as having process

But he said his diagnosis was compatible with those of the two other defense psychiatrists who are scheduled to testify, Dr. David M. Bear and Dr. Thomas C. Gold-man, and of Dr. Ernst Prelinger, a defense psychologist.
Dr. Carpenter has described

illness that becomes increasingly severe with age, and that involved in Mr. Hinckley's case, gradual withdrawal from social cootacts into an inner world dominated by delusions that had no basis in fact, "eccentric or bizarre thoughts," and irrational impulses to commit violent acts.

The psychiatrist cited what be said had been Mr. Hinckley's belief that his union with Miss Foster "was somehow foreordained, that be was being propelled in her di-rection," as the center of "a major delusionary system."

The psychiatrist, who is director of the Maryland Psychiatrie Research Center, completed three days of testimony Monday.

Fear of Denton's Panel **Ebbs Among Liberals**

Senator, Unlike McCarthy in '50s, Inspires No Witch-Hunts in U.S.

By Charles Mohr

New York Times Senice
WASHINGTON — The creation
last year of a Senate subcommittee on internal security and terrorism alarmed many liberals who feared it might signal a revival of the in-quisitorial huots for subversives of the 1950s.

The subcommittee chairman, Republican Sen. Jeremiah A. Denion of Alabama, at the time protested, "I am oo Joe McCarthy."
The liberals' fears have since faded considerably. Sen. Denton, a retired admiral and a pilot wbo spent more than seveo and a half years in a North Vietnamese prisoner-of-war camp, has held more than 20 hearings oo international terrorism, alleged Communist ma-nipulation of the press and the actions of Communist intelligence agencies in America. But be has not tried to summon witnesses to be interrogated on their political associations, as Sen. Joseph McCarthy did three decades ago.

The liberals' eased apprehension about Sen. Dentoo seems based oo a feeling that he has not developed the political drama, personal following and national attention that might excite the passions of those earlier iovestigations.

'Without a Script'

"He can't get his subcommittee off the ground," a Democratic senator said.

An official of the American Civil Liberties Unioo in Washington, said, "It seems to be a play without

And a lobbyist for a black organization said, "We thought of picketing when he scheduled bearings oo Communist cootrol of African national liberation movements, but theo decided that protest would draw more attention than the bearings."

Such views appear to be widespread, but some officials are reluciant to express them openly for fear they might good Sen. Denton into more vigorous action.

Sen, Denton, who stirred strong national emotions when he led home the first group of Vietnam War prisocers, declaring, "God

bless America," defended his work. "I am satisfied that we have done an acceptable job at an ac-ceptable pace," he said in an inter-

Media Coverage

He added that be believed that the media have "unfairly" failed to give his inquiries serious coverage and, like the American public, have failed to understand the security dangers facing the country.

His initial hearings a year ago
attracted considerable attention when several witnesses outside the government argued that the Soviet Union and its "surrogates" were guilty of supporting and encouraging terrorist organizations that were said to be part of an international network. Subsequent hear-

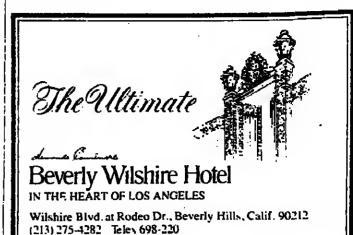

The next hearings, Sen. Denton said, are scheduled for late June and will focus on the "Levi guidelines," promulgated by Edward H.
Levi, President Gerald R. Ford's attorney general. The guidelines, adopted after intrusive investigations of radical political groups by the Federal Bureau of Investigation, state that the FBI may not investigate or monitor a political group unless there is reasonable ground to suspect that the group ntends to engage in criminal activ

Many conservatives coocerned with terrorism and other internal security issues consider the guidelines ton restrictive. But William H. Webster, the FBI director, has said he finds them acceptable and has testified to that effect before Sen. Dentoo.

Sen. Denton also is considering legislation that would make terrorism itself a federal crime, thereby permitting federal prosecutions in many bombing incidents and other cases of violence.

Tell the homefolks how you're getting around Europe and make a pretty fare saving on the call.

Traveling through Europe can be a moving experience—and you want to stop just long enough to tell your family and friends about it. Check out the money-saving tips below, then give them a call. It's the first-class way to reach them—at bargain rates.

Save on surcharges. Many hotels outside the U.S. charge exorbitant surcharge fees on international calls. And sometimes the fees are greater than the cost of the call itself. But it your hotel has TELEPLAN, the way to keep hotel surcharges reasonable, go ahead and call. No Teleplan? Read on!

There are other ways to save money. Save with a shortie. In most countries there's no three-minute minimum on self-

dialed calls. So if your hotel offers International Dialing from your from, place a short call home and have them call you back. And you pay for the callback from the States - you'll get more mileage for your money.

with dollars, not local curtency, when you get your next home or office phone bill. Save these other ways. Telephone Com-

pany Calling Card and collect calls may be placed in many countries. And where they are, the hotel surcharges on such calls are usually low. Or, you can avoid surcharges altogether by calling from the post office or from other telephone centers.

Save nights & weekends. Always check to see whether the country won're in has lower rates at night and on weekends. Usually the savings are considerable. Now

cords as a fugitive. U.S. District Court Judge Norma Holloway Johnson has ordered

a public hearing on whether evi-dence gathered from foreign wire-tapping can be used in a U.S. crim-inal trial.

By Patrick E. Tyler

Washington Peat Service
WASHINGTON — The head of
the Saudi Arabian missile air-de-

fense program in the late 1970s

wiretapped a top executive of Raythcon Co., the radar concern that installed Hawk missile sys-

tems in Saudi Arabia, according to court records and knowledgeable

The wiretap records were turned over to U.S. officials and led to the indictment last summer of Joseph

dent, oo charges that be and another Raytheon official received a

The kickback allegedly came from other American businessmen

who were shipping modular hous-ing for Raytheoo's operations in

Public Hearing Ordered

Mr. Carver is listed in court re-

di Arabia and are also involved

\$1-million kickback.

io the case.

American officials say the wiretapping was cooducted in Saudi Arabia without the involvement of U.S. intelligence agencies. It was first presented to Judge Johnson in a confidential hearing last year by Justice Department prosecutors

national fraud. The case is unusual because it involves Saudi detection and Saudi allegations of corruption by Americans doing business in Saudi Arabia. In the past, alleged corruption cases in Saudi Arabia have almost exclusively focused on schemes in which U.S. businessmen allegedly paid off Saudi agents to obtain

multimillion-dollar contracts.

Raytheon, a Massachusetts-based military contractor, maintains that it was victimized by allegedly unscrupulous employees, according to Judah Best, the firm's lawyer in the case.

Lawyers for some of the defend-ants apparently have received access to the wiretap material and are challenging its admissibility on grounds that it was illegally obained under both U.S. and Saudi

The prosecutors had claimed ini-tially that turning over the wiretap material to defense lawyers would harm national security. The Justice

Department would not comment. In an opinion issued last month, Judge Johnson accused the prosecutors of using the confidential sentation of evidence to "avoid the fundamental choice of disclosing certain classified materials or dismissing the prosecution."

In ordering public hearings to consider whether the evidence should be suppressed, the judge left open the possibility for an ad-

Saudis Wiretapped American in Fraud Case ditional hearing. From court re-cords, it is unclear why the wire-tapping was initiated by the Saudi

Another question raised in court papers is that of the "graymail" defense in which defendants attempt to cause the government to jeopardize classified material as a lever to make prosecutors drop the

In her opinion, Judge Johnson summed up the evidence question by saying: "Although the indictment was oot returned until the fall of 1981, an investigation of defendants was begun several years ago by the government when it learned of the allegedly unlawful transactions underlying the indiet-ment from sources who had cooducted surveillance in a foreign country of at least one of the de-

fendants."
She added: "The government ... maintains that it had oo involvement in the foreign surveillance ... [but] in fact, it would appear that the prosecution was initiated largely due to the surveillance."

As part of the bearing, subpoens records show that o summons was issued on March 30 for Saudi Prince Khalid Ibo Abdul Aziz, who supervises the installation of the ground air-defense systems in the Saudi Defense Ministry. The prince, who reports to his father, the Saudi defense minister. Prince Sultan, is expected to appear in court for the hearing.

Raytheon hoard chairman Thomas L. Philips and company president D. Brainerd Holmes are also scheduled to appear as witoesses at the hearing.
The 1981 indictment accuses

Mr. Carver of conspiring with executives of a freight-shipping firm to fraudulently add oo concealed freight charges to modular bousing units purchased by Raytheon in

In doiog so, the officials of the shipping firm, Interconex loc., al-legedly agreed to pay Mr. Carver and another Raytheoo executive, Joseph C. Lemire, about \$1 millioo in bribes, according to the indictment. Another \$1 million was al-legedly sipbooed off the shipping contracts by the then Interconex chairman Lionel W. Achuck and Intercooex president John T. Stephens, according to the indict-

Mr. Carver, Mr. Lemire, Mr. Achuck, Mr. Stephens and Inter-conex were all named in the indiet-

Last-Chance Week?

This is billed as last-chance week in the conflict between Argentina and Britain. If the two countries cannot find their way out of the box they are in, they may find themselves engaged against their mutual better judgment in a far wider and bloodier war.

The British government is under the pressure of its own keep-the-heat-on tactics, its public opinion and the gathering South Atlantic winter to bring its full available force promptly to bear; otherwise its military option may fade, as much of its support in Europe already has faded. The Argentine junta would sit tight if it could, but it is under deepening economic duress, and its internal and international backing is unreliable in the long haul. Both countries have formidable weapons, and their pride is engaged. The relative restraint they have displayed so far shows signs of wearing thin.

In the six weeks since Argentina seized the islands, the elements of a settlement have been identified, first by U.S. Secretary of State Alexander Haig and, after the United States abandoned mediation, by UN Secretary-General Javier Pérez de Cuéllar, Military withdrawal by both sides will be required, followed by the establishment of an interim government and the onset of a negotiating process to determine the ultimate sovereignty of the islands, including the fate of their 1,800 residents.

Both Argentina and Britain are making a strenuous effort to assure that, if diplomacy fails, the onus will fall on the other side. But success in that effort will be cold comfort if it means further violence. Britain in particular must calculate not only the costs of a possible stalemate or defeat in a major military operation but the costs of success: These could include, in addition to casualties and damage to the fleet, the need to defend the islands thereafter, if only to demonstrate to a skeptical public that Britain had not sacrificed to regain the islands simply to turn them back to Argentina.

The Falklands affair remains one of the simpler international disputes that has come along in the postwar period. Unquestionably. a peaceful settlement is within reach, but the politicians and diplomats of both sides still have some reaching to do to grasp it. They failed to begin with by getting their countries into this fix — the British by inattention and the Argentines by overreaching. They will not be forgiven if they fail to get their countries out of it.

THE WASHINGTON POST.

The Primitive Right

The recent rightist victors in El Salvador's election present three faces: primitive, traditional and pragmatic. There's a case for U.S. collaboration with their practical wing and acquiescing in the traditional conservatism of another group. But there is no reason whatever to indulge the primitive faction, led by the bloody-minded Roberto D'Aubuisson. That some U.S. diplomats try to put a moderate face on "Major Bob" is not just misguided, it is alarming.

D'Aubuisson's party took a fourth of one million valid ballots, giving it 19 of 60 seats in the new Constituent Assembly. But those votes don't deodorize a leadership that talks of exterminating opponents and sneers at Christian Democrats as "watermelons" green outside, red inside.

As president of the interim assembly, D'Aubuisson sees himself as El Salvador's ruler. With the votes of the more traditional right, his party has voided the crucial second phase of the land reform championed by the Christian Democrats and some pragmatic officers who served in the recent junta,

But the interim assembly should not be conceded plenary powers. It was to draft a constitution, name a provisional government and prepare elections once promised for next year. Until those elections are held, the center of power should be the provisional president. Alvaro Magaña, and his three-party Cabinet, in which centrist Christian Democrats hold key ministries.

The United States has earned the right to press for this agenda. It was the main promoter of the voting and continues to underwrite the economy and armed forces. Yet its officials are glossing over the crudities of the D'Aubuisson group.

The primitive right scoffs at the United States' dilemma, believing that any regime will keep getting guns and money so long as it battles against leftist guerrillas. It can get only comfort from a House committee's vote to dilute past conditions for U.S. aid that included evidence of real respect for human rights, reforms, and a good-faith effort to win over moderates in the insurgent ranks.

Those are not utopian conditions. Their value is accepted by the pragmatic Salvadoran officers who overthrew a rightist regime in 1979 and formed the junta eventually led by President José Napoleón Duarte. That coup was a response to the overthrow of Somoza in Nicaragua, which shook all Central America, Reasonable conservatives concluded that unless reforms were sponsored from above there would be an explosion below. In Honduras and Guatemala, army leaders also seem to be moving with the tide.

In promoting the March election in El Salvador, Washington did not intend to enthrone the primitive right. If the administration cannot find the voice to say that clearly, then let Congress once again speak for the American people.

THE NEW YORK TIMES.

Other Opinion

Action Needed on U.S. Economy

Intervention alone cannot fight against underlying forces. But properly used it can do something to cut down the often irrational swings which occur in markets with floating exchange rates. The Reagan administration ought to open its mind to this possibility. It should also ensure that it does not end up

with a tough domestic monetary policy and a loose fiscal policy pulling in opposite directions. The signs of a compromise between the White House and the Senate Republicans on taxes in the coming years are an encouraging step in the right direction. But further progress to cut the deficit is going to be needed if the markets are going to be convinced. - From The Times (London).

LETTERS

Proud Yemenis

Regarding "North Yemen Turns to Moscow," (IHT April 24-25): Having worked and lived for four years as economie adviser in San'a, I would like to say that the Yemen Arab Republic (wrongly referred to as North Yemen) is a very interesting old modern country, with a very sharp and proud population; it is not easy to un-derstand them or to know their

motives or intentions.

Their sharpness is acquired from the rugged, mountainous terrain. Their pride is drawn from their strong feeling that Yemen was the cradle of most Arab nations and that when Yemen was a fairly civilized place, with engi-neering capabilines, dams, beautiful mountain terraces, fairly advanced agriculture and multistory houses, most of the major countries they are now dealing with were either mostly desert (Saudi Arabia) or nonexistent (U.S.A.).

The difficulty in knowing their motives and intentions is a result of their long-imposed isolation and their skepticism of everything foreign. Superimposed on these factors are the developments since the civil war was over in 1970, followed by the emigration of a sizeable number of Yemenis to the rest of the world, particularly Saudi Arabia. As a result, the Y.A.R. drew an increasing amount of foreign exchange, which became the real fuel be-

hind the prosperity it had been son Yakow. They surely underenjoying since about 1974.

With this and other flows from Saudi Arabia, other Arab states, dead. But that is the number of Saudi Arabia, other Arab states, Western and Eastern European countries and financial institu-tions, the Y.A.R. became wholly integrated into the world market and also integrated with the Gulf states, particularly Saudi Arabia. It is perhaps in this context that the U.S.A. is failing to deal

with the U.S.A. is failing to deal with the Yemenis, both government and people, in the way they believe proper and sensible. Instead of looking directly towards the Y.A.R., the U.S.A. is working through the web that ties the Y.A.R. to Saudi Arabia economically financially etc. This is the cally, financially, etc. This is the real feeling of most Yemenis. Their economy and source of livelihood may be dependent on the Gulf states, yet neither the Yemeni government nor its people will ever accept to be dealt with as a part of any other enrity. A.A. ALI.

Instinct for Survival

Regarding "The Approach Must Change" (IHT, April 16): The assertion by R.C. and E.A. Molander that Soviet leaders have the buman instinct for survival is deceiving. They have an instinct for survival in power. They are parents and grandparents, but it should be remem-bered that Stalin repudiated his

people they have exterminated during Communist rule. The West's margin of safety depends not only on quantity of arms, but also on the mentality of its adver-

JERZY SLOMKA. Ydra, Greece.

Poor Trudeau

Regarding "Long Trip Ends for Trudeau" by Joseph Kraft (IHT, April 19): As a Canadian living in Germany I concur 100 percent. Poor Trudeau has been black-balled ever since I can remember. The defeat of the Levesque re-ferendum by 60/40 in 1980 may be considered as the turning point for Lévesque's nationalist Party

THOMAS P. WRIGHT.

The Real Culprits

Regarding The Nuclear Debate

One awaits analysis of the hidden persuader: the big money lobby behind the million-dollar-aminute armaments industry. The real culprits must be subjected to rigorous scrutiny.

A.S. MacEOCHAID.

May 19: From Our Pages of 75 and 50 Years Ago

1907: Homespun All the Rage

ASHEVILLE, N.C. - Mrs. George W. Vanderbilt bas created a fad for bomespun dresses by taking to homespun herself. The mountain women who made Mrs. Vanderbilt's dresses, which cost her \$25 each, have been besieged with orders. Mrs. Vanderbilt's new departure is not because she prefers homespuns to Paris dresses, but because she wishes to revive the almost lost art of hand spinning and weaving among the mountain women and to give them employment. Mrs. Vanderbilt appeared in Asheville a few days ago in a yellow homespun, which she seemed very proud of. She said it was her intention to send this dress, along with a Biltmore estate exhibit, to the Jamestown exhibition.

1932: Accepted Footing for India

TORONTO - Federation of all India within the policy of the British Commonwealth - not on terms of subordination, but on a mutually accepted footing of equal partnership - was named recently by Lord Irwin, viceroy of India from 1926 to 1931, as he inaugurated the Massey lectures, which are to bring annually to Canada a man of prominence from Great Britain. It will be no easy task, Lord Irwin warned, to find means by which the developing democracy of British India may be brought to cooperate smoothly with what, for the most part, still are the autocracies of the states. Mahatma Gandhi, he added, "appeals to deep forces in Hinduism, of which we know little."

The Mellowing of Reaganism: Accepting the Real World

WASHINGTON — Here in Personality City, where the name of the game is names who's up, down, in or out — the fashionable wisdom now has it that Secretary of State Alexander Haig is up. Defense Secretary Caspar Weinberger is down, and William Clark, the White House national security adviser, is in.

This, it is said, accounts for a certain mellowing, a new moderation and a greater measure of coherence in the Reagan administration's approach to foreign policy: arms control, for one example, East-West relations to general, the Mideast, Central America. Taiwan and other areas. And perhaps it does, up to a

point. But it strikes me that something more fundamental is at And this says something import-work. True, there has been a signif- and about the president himself —

CAMBRIDGE, Mass. — At last, nearly four years after

the dramatic signing of the SALT-2 treaty in Vienna, the United

States has moved to revive the ef-

It remains a matter of conjecture whether the U.S. Senate would have ratified the pact. There

was never a vote. President Jimmy Carter withdrew SALT-2 from consideration when the Soviet Un-

ion invaded Afghanistan because

after that the treaty would surely

The issue figured in the 1980 campaign. President Reagan took

office proclaiming opposition to the treaty, offering plans for a ma-jor increase in nuclear forces and insisting on "linkage," tying fur-ther negotiations with Moscow to

its restraint all around the world.

Deep Cutbacks

The Reagan administration has said all along that it would favor deep, balanced cutbacks in the

tem would collapse.

have been defeated.

fort for strategic arms control.

icant shift in the policy-making center of gravity in the Reagan administration, and it doubtless owes something to the artfulness (or art-lessness) of the infighters. It owes something, as well, to a vast improvement in the control mechanisms installed by Clark.

But it owes far more to a sort of collective acceptance of reality. One senses a heightened recognition of the need to adjust preconceptions and powerful past predi-lections to fit the harsh exigencies of the real forces at work, at home and abroad: "peace" movements, economic constraints, the intractability of allies, and the intransigence of adversaries.

Others, somewhat less sanguine, wanted to bold off talks for several

years until the United States could

get its buildup far enough along to

bargain from a position of prepon-

derant strength.

And others, mainly at the State

Department, argued that the Unit-ed States had to live with the Sovi-

et Union, that nuclear parity could

not be reversed, and that arms

control was more important than

Convictions

has finally offered negotiations and a restoration of the East-West dialogue. Every U.S. president since the time of the first nuclear

Facing Responsibility for Nuclear Weapons

By Flora Lewis

By Philip Geyelin

something that tends to get lost in South, to a "long twilight struggle" the names game's preoccupation with the relative pre-eminence of his advisers. For better or worse, the Ronald Reagan who came across throughout his campaign and most of his first year in office as forever fixed in the concrete of arch-conservative ideology is capable of behaving like, well, other presidents — of being strong enough to bend.

A confident John F. Kennedy crashed quickly into the Bay of Pigs. Thereafter, his inaugural call to arms ("We shall pay any price. bear any burden") gave way in practice to policies better attuned to less-well-remembered passages in the same speech — those sum-moning East and West, North and

sharing proposal that would have stopped the race. The Soviet Un-ion wasn't interested, because it

President Kennedy, who cam-

paigned against a theoretical "mis-

sile gap," dropped that theme once in office. When be realized what "massive retaliation" really meant,

he ordered a change from that choice between holocaust and pos-

sible impotence to the doctrine of

"flexible response" — the threat of limited nuclear war in Europe.

SALT-2 treaty. At each step, what

had first been rejected as unfavorable to the United States came to

be accepted as necessary for the safety of the world. But all the time the arsenals kept growing.

Initial Reactions

Now some initial reactions to

the Reagan proposals criticize them for leaving open the possibil-ity of continued missile produc-

tion, but a "verifiable freeze" on

both sides is probably beyond ear-

ly reach. It assumes negotiators

can work faster than weapons

builders, which hasn't yet hap-pened. But they can change the di-

rection of events.

Presidents Johnson and Nixon made arms control agreements, and President Ford advanced the

wanted to catch up, and did.

against "the common enemies of mankind: tyranny, poverty, disease and war itself." In office, he conceded that he couldn't find the "missile gap" that had yawned so alarmingly in his campaign. Lyndon Johnson hit the ground

running with an inherited national security team and a firm commitment to the struggle in Vietnam. He had to discover for himself that, hard as he hammered, he could not nail that Vietnam coonskin to the wall.

Jimmy Carter's good intentions paved the road to Camp David, but also in a certain sense to the shock of discovery of Soviet malevolence in Afghanistan and to the collapse of American policy in

The critics show what the noted sociologist David Riesman calls the "guilibility of the cynical." It really doesn't matter whether Reagan has been moved by new conviction, by concern about allies and Soviet propagands games, or

and Soviet propaganda games, or by domestic political pressures.

The point is that a U.S. proposal

to reverse the arms race is now going to be discussed. It isn't a

ake-it-or-leave-it offer. The Soviet

Union will surely respond with something more to its own advan-

tage. The process will be engaged, and that is the first urgency. Arms control cannot simply be a U.S. decision; it takes two.

The debate in the United States

has undoubtedly helped produce

this step. It must continue, not over details of what to propose —

which is infinitely complex and

has to emerge in negotiation —but over the insistence that the peace race be sustained and the arms

race curbed. It isn't a time to turn

Now there will be something to

watch, and watch closely. The

Harvard scientist Paul Doty, an

expert and longtime advocate of

controls, regrets hasty criticism and calls for a quarterly presidential report on negotiations. That's a fine idea, and it would help get authority and opinion going in the same direction once again

same direction once again.

away with relief, or disbelief.

wound up doing just the opposite. Circumstances alter cases in short, along with untoward events.

tran. Having entered office pledged to reduce spending for de-fense, the Carter administration

new perceptions, hard knocks, and the quite unpredictable play of politics in this country and in those with which we deal. While this is not to say that every adaptation is the right one, it does put some sort of premium on at least a capacity to adapt. That is what we. are increasingly witnessing in the Reagan administration's approach to foreign policy.

Without going into the nuts and bolts, the mere fact of the president's latest strategic arms control proposals, not to mention their timing, constitutes an accommodation to allied concerns and a response to the home front anti-nuclear movement as well. Scomed for a year, the Camp David peace process is re-emerging as the centerpiece of the United States Mideast policy: Progress on the Palestinian question is now recognized as essential to the development of the "strategic consensus" that preoccupied the administra-tion in its early days of concentra-tion on the Gulf.

Second Look

Congress has compelled a sec-ond look at Central American ond look at Central American strategy. Even while support for the Salvadoran rightist government is solid diplomatic feelers go out to Nicaragua's Sandanista government for some sort of deal Cooler heads have turned the heat off European allies to scrap their contractions of the cooler of the cooler heads have turned the heat off European allies to scrap their coolers are proposed.

Siberian pipeline as a means of pressuring the Soviets on Poland.

Tradition and practical politics impel the administration to deny any change, But when Norman Po-dhoretz (in The New York Times) is crediting his fellow neoconservanives for a large hand in Ronald Reagan's election while (on "The McNeil-Lehrer Report") expressing his "disappointment, bordering on despair," you have to believe that the Reagan administration is abandoning some of its original

true beliefs.
If being in love with Reaganism in 1980 means having to say you're sorry in 1982, there must be some reason for those of us who entertained more than a few reservations about early Reaganism to feel better.

01982, The Washington Post.

You Probably Heard, D'Aubuisson, My Boy, I Like to Be Considered a Friend of Both Sides."

Greece's Most Radical Reform Bid

NEW YORK — Focusing pri-marily on foreign policy, most ontside observers of Greece's Socialist government have ignored or discounted the most radical fea-ture of Premier Andreas Papandreou's domestie reform program: its promise of democratic participa-

draw from the Atlantic alliance and the European Economie Community may presage other pragmatic retreats from economic democracy, but there is a good rea-son to believe that his party, the Panhellenic Socialist Movement, will be able to generate the kind of political power needed to keep this economic reform on the govern-

ment's agenda. While President François Mitterrand's Socialists have national-ized banks and nine of France's largest conglomerates with only token nods to the idea of decentral. ization. Mr. Papandreou is pledged to pursue a different course. His party's plans call for decentralized economic reform based on voluntary agricultural cooperatives and the "socialization" of some sectors

of Greek industry.

By socialization, the Greek Socialists mean a system of decentralized decision-making in the economy through government purchase of controlling shares in troubled industries, to be effected through conversion of debts owed Greece's already nationalized banks - with control over the industries invested in boards composed of workers, and consumers and government representatives. These boards would coordinate the industries under their supervision with national planning requirements, prosumably mediating to prevent market anarchy and an economy run by the government.

Now, nearly seven months after

Letters intended for publica-tion should be addressed Letters to the Editor," and must include the writer's address and signanure. the Panhellenic Socialist Movement's election victory, this social-ization policy still is in the plan-ning stage, with the first significant steps expected shortly. The obsta-eles to effective decentralization ition in economic policy.

Mr. Papandreou's perceived are formidable. Greece already has backsliding from threats to with
Atlantic alliance state runs about 60 percent of the economy - characterized by a

pervasive patroaage system.

The country is highly centralized politically (demographically and industrially, too, with a sixth of the population and most industry situated in and around Athens), and its trade unions are controlled by the state. And Greece, like many other European countries, has experienced an extensive flight of capital, not primarily because of the Socialists election but because of high U.S. interest rates.

Added to these barriers is another that must be faced by any effort at democratic centralization; constraints imposed by the international economy. Pressures for in-creased productivity in the name of competitiveness will be great, and as usual there will be those who wish to sacrifice popular control for technical expertise; the government's decision not to cmbark on a more extensive program of worker self-management, which would aim at democratizing the work place as well as the economywide decision making process, is already a concession to that inter-

national pressure. Athen's aim in attempting to renegotiate the terms of its EEC membership is to gain some protection from these forces. Greece has benefited handsomely, receiving about \$120 million in profits from the EEC budget last year; this year it expects to take in about \$708 million. But the socialization plan runs afoul of some Common Market policies, including a ban on certain industrial and agricultural subsidies, and the negotia-tions will be aimed at loosening these restrictions and retaining some tariff protection for small businesses that stand to suffer from EEC competition. The com-munity's rules will probably pose less of a threat to Greece's effort at democratizing the economy than the International Monetary Fund's

strictures did to Portugal after the

overtimow of the Salazar dictator-ship in 1974.

of course, and the government's hopes of attracting Middle East in-vestment dollars have so far not been realized. The one counteracting pressure is the composition of the Panhellenic Socialist Movement itself.

For the first time in post-civil war Greek politics, a party has emerged whose strength lies in local party organizations and grassroots enthusiasm. It is here that the movement differs from the French Socialist Party, with its technocratic leadership, and from those among the Portuguese Soci-alists who, without a popular base in their own party, knuckled under to IMF demands

The exigencies of the international economy will favor the old-style Greek politics of paternalistic leadership, but the Socialist Move-ment's decentralized strength makes effective local power a pos-sibility. It is to the local party branches that one must look for signs of socialization's success or failure: If they lose ont to controls from above, socialization will become just another form of state power, and advancement toward democratic reform will stop. Only a participatory, decentralized po-litical movement can make economic democracy work.

The writer, a humanities fellow at Columbia University and managing editor of "democracy" magazine, contributed this article to The New

bound to change over time.

Spirit of Constitution

WASHINGTON — An austere

"It is not," Alexander Hamilton wrote of the Constitution in the upon a calculation of existing exi-

"It is," Chief Justice John Mar-

That exalted tradition gives the true measure of the current rage to amend the Constitution. The proposed changes would junk up the fundamental law of the land with controversial views on issues of the moment. It is astonishing such proposals could come from groups that are pleased to call themselves

abortion, the balanced budget,

Abortion is perhaps the most disputed social question in the United States today. It is a con-stant subject of action in both the national Congress and the state legislatures. The Supreme Court, having ruled against making abortion constitutionally inadmissible, is now refining that decision — particularly with respect to payment of costs by the state. Medical technology alters so rapidly that establishment of the inception of pregnancy is itself something

The balanced budget goes to the heart of the legislative process. Nothing is more appropriately the province of the Congress than the levying of taxes and the voting of appropriations. The size of the deficits now impending stamps sup-port for the amendment by the Reagan administration as a classic example of the drunk preaching temperance. Even so, the administration has been baving a hard time reaching accord on the exact terms of an amendment.

School busing is another topic marked by high controversy and constant readjustment — in the Congress, the courts and by local school boards. The Supreme Court has been fashioning doctrine, case by case, and there is no reason especially given the rapidly changing pattern of residence in the

country — to give up on the tried and true method. School prayer is also subject to great local variety. In areas of religious diversity, notably on the East and West coasts, school boards constantly avoid, or dilute, religious practice. In areas of basic homogeneity, religious observance keeps asserting itself. To impose uniformity is to invite social ten-

sion. Hence the great dispute over the word "voluntary." The experience of past amend ments works to reinforce those arguments. Twenty out of the 26 are purely procedural, covering matters such as direct election of sena-tors and the date of presidential in-auguration. Six amendments do

deal with substantive law. The Reconstruction amendments (XIII, XIV and XV) brought the Constitution abreast of the proposition established in the Civil War, that the nation could not exist balf-slave and halffree. The XVIth Amendment legalized the income tax. The general rule is that substantive matters are added to the Constitution by amendment only when they in

volve business essential to the sur-vival of the republic. The exception that proves the rule is the XVIIIth Amendment, which introduced Prohibition in 1919. By outlawing a common cepted in social custom, the amendment worked to foster a national binge of crime and corruption. It was repealed, with a sigh of relief, in 1933 by the XXIst Amendment.

To be sure, the amendments now advocated by the right were not bred in a vacuum. They emulate the drive of the women's movement to establish by constitutional amendment a particular reading of equality between the sexes. They represent a reaction to efforts by a minority on the left to entrench in court decisions liberal views on such issues as abortion. budgetary entitlements, school busing and school prayers.

But the obvious conclusion is that neither right nor left ought to be able to fix, as eternal verities, notions that are intrinsically subject to change and adjustment. Certainly it cannot be claimed that a practice so remote from the intention of the framers, and so much at odds with traditional interpretations of the Constitution. is conservative. Even to the ideologues of the right, the term "conservative" ought to denote something more than mere response to liberal folly.

Friend for 30 Years

The French president will spend Saturday and Sunday in the Ivory Coast where he will meet with Mr. Houphouet-Boigny, a friend for more than 30 years. The French have particularly close relations with the Ivory Coast.

All the African leaders will be told of Mr. Mitterrand's plans for Third World development. The Socialist government has announced that it plans to double its aid to the Third World, particularly Africa, during Mr. Mitterrand's sevenyear term. This aid is expected to attain 0.7 percent of France's gross national product, against the cur-rent level of 0.35 percent.

Security also is expected to be a major topic during the trip. France has mutual defense treaties with six African countries — Ivory Coast, Comores, Djibouti, Gabon, the Central African Republic and

Finns Now Discussing Off-Limits Issue of Soviet Relations By John Vinocur

New York Times Service HELSINKI — Only a few months into the post-Kekkonen era, Finland is talking in public about things it did not really dare to mention during the 25-year presidency of Urho Kekko-

Mr. Kekkonen, who was suc-ceeded on Jan. 27 by President Mauno Koivisto, was a paternalistic rather than an autocratic figure, and the national debate during his presidency avoided certain subjects through an unspoken consensus.

There were zones of sensitivity, especially involving Finnish relations with the Soviet Union, and these were particularly ob-served during the first half of the Kekkonen era when Finland underwent two severe crises with the Russians and many Finns felt too much talk in the open could not help at all.

Now discussion has started about the future of the Finnish-Soviet mutual assistance treaty, which comes up for renewal at the end of the decade.

There is also an apparent lessening of official support for Mr. Kekkonen's proposal for a Nor-dic nuclear-free zone, which he had continually advocated since 1963 with the proclaimed aim of keeping the Nordic area as free of tension as possible. There seems to be more willingness as well to say that Finnish cooperation with the Scandinavian countries is just as important for the country's future as good rela-

tions with the Soviet Union. The subjects have always been there, but their private discussion was not allowed to interfere with the impression of unity the Finns liked to demonstrate behind Mr. Kekkonen's exercise of a Finnish foreign policy of neu-trality and friendship with all nations, particularly the Soviet Union.

"Under Kekkonen," said Prof. Osmo Apunen of the de-partment of political science of the University of Tampere, "there was an artificial public consensus. Now the disagree-ments are out, and questioning is legitimate."

The change has something to do with the approach of Mr. Koivisto. Where Mr. Kekkonen was precise and mastered a carefully controlled brutality of expression, Mr. Koivisto likes more rounded formulations.

Mr. Kekkonen's strength was his ability to transmit authority; Mr. Koivisto, who recently went to a sports ceremony in his sweatsuit, seems for many Finns to embody tolerance, good sense and a comfortable relationship with change in general.

Mr. Koivisto showed his priorities hy making his first for-eign visit one to the Soviet leadership in March. He went through a classic reiteration of the mutual benefits of being friends, but in referring to the

"fundamental striving" of Finnish foreign policy, he placed "our neighbors and the Nordic countries" on the same level.

Mr. Koivisto did not mention Mr. Kekkonen's concept of a Nordic tuclear-free zone, a choice noted hy many Finns. The assumption was that Mr. Kekkonen would never have made a dinner speech in the Kremlin without mentioning it and that Mr. Koivisto would not have omitted the idea out of

The significance of Mr. Koiv-The significance of Mr. Kolvisto's not mentioning the plan—regarded by the NATO countries as a kind of statement acknowledging Soviet strategic predominance in the area—is that it seems to be an indicator that Finland is likely to drop its native observed as a significant of the significant in Security. active advocate's role in Scandinavia and Western Europe.

In a recent interview on Swedisb television, the new president asserted that such ideas of nuclear-free zones involved the rest of Europe and the two super-powers, a way of saying that the Nordic countries could not safely embark in this direction on their own.

Mr. Koivisto also talked about problems in the Baltic Sea, an area where only the Soviet Union has nuclear weapons. The statements were both cautious and nuanced, but they were regarded bere as not of the sort that might bave been pro-nounced by Mr. Kekkonen.

For the Finnish Foreign Mining toward a more open elimate, although slowly." istry and Richard Muller, its po-

Perhaps the most interesting litical director, the basic Finnish positions are unchanged, but, as element in reaction to the professor's position was that it was he said, "There is a more relaxed taken very calmly. One interpretation of this is that public opin-"There will be a broader deion is ready for such a discusbate on foreign policy," he went on. "fi's coming to the surface, but I think it would be a mistake

Prof. Apunen said the issue is a special one for the Finns "because we have to maintain our credibility."

"Vis-a-vis the Soviets," he said, "we are in big trouble if there are doubts about it. Politically speaking, there's not much chance of a change in the pact and I don't think anyone wants it. But there is a change in approach. Previously, we all used the same words, but meant different things. We want to the control of the same words. ferent things. We're talking more directly now."

Another Finn, a former diplomat and international civil servant, who asked that his name not be used, compared the mood in his country with that in parts of Western Europe, particularly West Germany. Just as many West Europeans have forgotten the Marshall Plan, he said, so have many young Finns come to regard the Soviet Union with rather less caution.

"This generation doesn't re-member when we lived on a razor's edge," he pointed out. "The discipline of the people of my generation about what you say and do just doesn't seem neces-

LONDON - The Rev. Billy Graham has issued a statement to clarify his remarks last week about religious freedom in the Soviet Union, where he attended a confer-

Mr. Graham said Monday there had been "apparent distortion and actual misquotes" of what he said.

The statement said in part: "Freedom is relative, I don't have freedom in the United States to go into a public school and preach the Gospel, nor is a student free in a public school to pray or a teacher free to read the Bible publicly to the students. At the same time, we have a great degree of freedom for which I am grateful.

"In the Soviet Union there are an estimated 20,000 churches open, and each year hundreds of permits are granted for new churches. Most authorities in the field say there are more practicing Christians than Marxists. However, there are clearly restrictions."

Alcoholism Among U.S. Women **Shows Sharp Rise, Survey Reports**

By Susan Chira

New York Times Service NEW YORK - Alcobolism has risen sharply among younger wom-en in the United States in the last decade and may affect many women's lives even more negatively than men's, according to a survey of treatment and counseling cen-

ters by Redbook magazine. The survey, which received re-sponses from 62 agencies in 28 states that have worked with more than 11,000 alcoholic women, found that excessive drinking may have more severe physical and social effects on women than on men, and that women who are alcoholics are more likely to remain

The centers, public and private, ranged from the Women's Alcohol Coalition in San Francisco to the Rural Women's Alcoholism Project in Maine.

The report, in the June issue of Redbook, also drew on interviews

agency officials and women who have overcome drinking problems. The managing editor of the mag-azine, Jane Ciabattari, said figures gathered by other agencies sup-

Alcoholic women may develop cirrhosis faster than men, according to the National Institute on Alcohol and Alcohol Abuse. Excessive drinking may also damage women's reproductive capacity

ported the trends found by the sur-

and harm unborn children. Alcoholic women run a greater risk of rape and unwanted pregnancy, the survey found. Women are more often dismissed from jobs than men when their alcoholism is discovered, and men are more likely to abandon alcoholic wives, according to the survey.

The findings come at a time when membership of women in Alcobolics Anonymous is the highest ever and when 2 of 3 women use alcohol, according to a 1981 Galwith physicians, federal alcoholism lup poll.

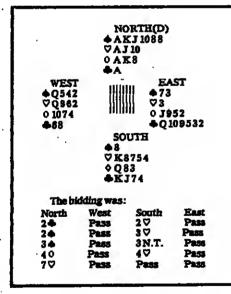

women," said Pam Miller, administrative director of the Women's Alcohol Coalition in San Francisco. "It's the image of the fallen woman, the bad mother. The guilt women have is just incredible."

Japan Bracing for Tough Session With Other Countries at Versailles Summit

on maradane de la como de

International Herald Tribune TOKYO - If what French President François Mitterrand told the Japanese during his recent visit here is a foretaste of things to come, Japan will be up against some of the strongest pressure it has yet encountered to eliminate remaining barriers to imports when major industrialized nations meet in Versailles next month for their eighth summit.

Although Mr. Mitterrand told his bosts he was opposed to denouncing Japan or placing it in the role of a defendant, it is bard to escape the feeling here that that is the position in which Japan finds itself as officials put the final touches on the case Tokyo will present.

After months of pressure from the United States and the European Economic Community to reduce its lopsided trade surplus or face protectionist retaliation. Versailles for Japan represents a political forum where it hopes to convince its peers once and for all that it is as anxious as they are to lower trade barriers in the interests of revitalizing the world economy.

This will be Japan's basic approach. In the words of a official helping put together the Japanese presentation, "The summit is not e The approach must be from a broader dimension. We must view the problems from the long range."

The Japanese are convinced that the answer to problems arising from Japan's trade surplus in the coordinated response of all of the industrialized nations in getting the world economy back on its feet. And they are confident that, sectional interests aside, others think the same thing.

The Japanese are not prepared to lift non-tariff barriers without first carrying out fundamental structural reforms in the domestic production and marketing system, particularly in the agricultural sector, without which an unrestricted inflow of foreign goods would invite economic and even political chaos.

But such restructuring would take years. without any assurance that it would succeed. Recent talk of easing restrictions on agricultural imports caused such vociferous opposition from farm interests that Premier Zenko Suzuki was compelled to state publicly that protection

for agricultural would remain. Mr. Suzuki is expected to take with him a limited list of items whose imports Japan feels it can liberalize now. Last week, the Japanese said they would make the list public before the summit: diplomats in the West are expecting the disclosure next week.

This would be the second list since the first of 68 items announced earlier this year. But it would represent items Japan can accept more of without disrupting local industries and is primarily intended to take some of the pressure off Japan.

Causes of Recession

The Japanese trade surplus, officials bere feel, will remain disproportionately large without a cooperative effort hy all summit participants to overcome the basic causes of world

The officials say remedies they fevor include improving the flow of investment, particularly to regions lacking funds, the lowering of U.S. interest rates, more aid to the developing countries, technological cooperation between the advanced and developing nations and greater industrial cooperation among the major West-

ern powers. Toshio Komoto, director-general of the Economic Planning Agency, has said that revitaliz-

ing world economic activity will be the No. 1 topic at Versailles and implied that reduction of U.S. interest rates would be a priority issue. Other subjects Japan wants discussed include greater efforts hy Western Europe to reduce unemployment and inflation, and ways to achieve increased cooperation between the West, including Japan, and the Organization

of Petroleum Exporting Countries. Trade and Industry Minister Shintaro Abe, who will accompany the premier to Versailles. has a proposal for nine joint research projects with other summit countries in such high-technology areas as robotics, communications satellite launching and integrated digital and fiber-optic communications networks. The proposal reportedly calls for participating countries to pool e fund for projects lasting from eight to 10 years.

The premier himself is known to be studying the possibility of forming a Pacific Basin economic community to include the United States, Canada, Australia, New Zealand and Jepan, and the five member countries of the Association of Southeast Asian Nauons.

It has been reported that Mr. Suzuki wants to sound out summit leaders in Versailles on

the plan before formally announcing it in Honolulu en route home. He discussed the plan with Mr. Mitterrand in Tokyo, and the president was reported to have expressed strong interest.

Japanese officials feel they have already made considerable concessions in removing nontariff barriers to trade. Although few will publicly say so, there is an undercurrent of resentment here that the Japanese are being penalized for the diligence and hard work that prought them economic success.

"We are not going to Versailles to make excuses," an official said.

A Changed World

Rather, the Japanese effort will be in gaining public recognition from other summit countries that trade frictions are but one of the many effects of a recession whose causes involve many countries and which can be elimineted only through e multinational effort. Officials bere say that what Japan seeks in this regard is a consensus of summit participants in clarifying the basic framework within which

solutions can be given specific direction. What the Japanese will, in effect, be suggesting at Versailles is the mutual recognition of the need for a greater international division of labor in a world that has changed considerably since the first such summit.

As one official put it, "Having completed the first cycle of summit conferences, we noturn to France to begin the second round in a world that has become much more interdependent, a world that has since passed through two oil shocks, revolutions and other upheav. als. As such, we must recognize the purpose of the coming summit, which is not to discuss subjects on a detailed, issue-by-issue basis but to exchange opinions so we can reach agreement on broad guidelines in a coordinated ef. fort to resolve the world's problems. The question is how to arrive at a consensus on what must be done to restore vitality to the world

At the early summit meetings there were some who felt that Japan was regarded as an outsider, a country not a member of the cultural "in" group as were the other six. The impact that Japan's growth in world trade has since had on the other Western economies makes it certain that this time it will command more

Reaganomics May Dominate Talks

(Continued from Page 1) of the leaders of the industrial West. Like its predecessors, it is being hilled less as a forum for resolving issues than for airing them and establishing objectives in a general way.

Added to the importance of Ver-sailles this year is the fact that Mr. Reagan will also be attending a summit of the North Atlantic Treaty Organization June 9 and 10 in Bonn, where several critical East-West issues, including nuclear arms talks with the Soviet Union, are due to he discussed. The goal of both the Bonn and Versailles summits, then, is to seek greater political and economic harmony at e time when the Atlantic alliance is straining with different perspec-tives, views and political pressures.

"The main focus of the trip is the re-establishment of a fundamental understanding between Eu-rope and the United States," said Mr. Hormats. "Yes, Japan and Canada will be et Versailles. But Europe is the central element to American foreign policy and American international economic policy. No two areas of the world have a greater depth of commit-ment to each other. Unless you get the European-American relationship right, it's hard to get every-

thing else right." Because Mr. Haig wanted a high-level official trusted by the president to help advise on the summit, he asked George Shultz. Treasury secretary in the Nixon administration, who is chairman of the president's economic advisory board, to meet with leaders in Europe, Canada and Japan and re-port informally to the White House on his talks.

Mr. Shultz's expertise is certain

U.S. Said to Tell Peking It Expects Eventual End to Taiwan Arms Sales

The Associated Press PEKING - The United States has told China it does not expect to sell arms to Taiwan indefinitely, senior foreign diplomats reported Tuesday. The diplomats described the stand as a major show of U.S.

The diplomats, briefed hy highlevel Chinese Foreign Ministry of-ficials, said the United States stopped short of egrecing to a deadline ending all U.S. military sales 10 the island. None of the diplomats wanted to be identified.

They said China was given the

dent Bush's visit earlier this month. U.S. Embassy officials here have repeatedly declined comment on the substance of Mr. Bush's discussions. China has called Mr. Bush's visit encouraging but said the crisis over Taiwan still exists. Deadlocked negotiations on the prob-

lem are expected to resume in Peking late this month. They started in November.

Mr. Bush said he was taking back to President Reagan some specific ideas from his discussions with the Chinese. But he said before leaving Peking there is no sin-

U.S. position during Vice Presi-

gle initiative that will solve the Taiwan problem. Washington broke formal ties with Taiwan and normalized rela-tions with Peking in January, 1979. But under the Taiwan Relations Act passed by Congress, the Unit-ed States pledged to sell defensive weapons to the Nationalists on

China's Communist government objects to all U.S. arms sales to Taiwan. Peking considers Taiwan a Chinese province and has repeatedly warned Washington it will depressed a sificial relations unless downgrade official relations unless

the sales stop. China contends that all arms sales interfere with its efforts to peacefully reunite Taiwan with the mainland. The Nationalists have rejected all Peking's overtures as "Communist tricks."

Mr. Reagan said in a letter to Premier Zhao Ziyang that he ex-pected Taiwan's needs for arms to decrease as peaceful reunification-is realized. The president also for the first time praised China's reunification plan, which would allow Taiwan to keep its free enterprise system and defense force.

The senior foreign diplomats quoted leading Chinese officials as saying the United States assured Peking it "will not perpetuate". arms sales to Taiwan and that such sales need not continue indefinite

In what the Communists called efforts to compromise, China earlier this year asked the United States to set a time limit ending all military sales to Taiwan. China re-portedly asked for a U.S. agree-ment in principle to end sales, leaving the cutoff date and details to be worked out later.

Diplomatic observers said the latest U.S. private statement about limited duration goes a long way toward satisfying China's requirement. At the same time, they said, it preserves the U.S. commitment to Taiwan's defense needs.

Observers said that this show of flexibility, while not a commit-ment, bolster's the position of China's top leader, the deputy party chairman, Deng Xiaoping, and others who say U.S. China rela-tions are vital to China's security and economic development.

Taiwan Protests to U.S.

TAIPEI (Reuters) - The government here has protested strongto Washington over remarks that Mr. Reagan made about U.S. arms sales to Taiwan in recent letters to Chinese leaders, the Central News Agency reported Tuesday. The protest was accompanied by

a demand that "the U.S. refrain from damaging the Republic of China's sovereignty and status," the agency quoted Foreign Minis-ter Chu Fu-sung as saying in par-liament Monday.

Kin of Seoul President Held in Loan Scandal

The Associated Press SEOUL - A relative of President Chun Doo Hwan was arrested Tuesday on charges of bribery and influence peddling after being linked to a buge loan scandal.

The president had no comment on the latest development in the scandal in South Korea's political and financial circles. Mr. Chun came to office pledging to stamp out widespread corruption.

Prosecutors said the man arrested was Lee Kyoo Kwang 57, younger brother of Mr. Chun's father-in-law and a former brigadier

Mr. Lee was charged with taking \$142,000 from his sister-in-lew Chang Yong Je to peddle his influence in favor of an Arab-Korean bank project pushed by Miss Chang's husband.

Prosecution sources said the charges were indirectly linked to the loan scandal, which involves \$210 million of suspicious bank loans and commercial paper trans-

Mr. Lee resigned as president of the government's Korean Mining Promotion Corp. after Miss Chang and her busband were arrested two weeks ago on charges of defraud-ing six large business firms. Mr. Lee's arrest came hours af-

ter he was interrogated on suspi-cion that he bad helped Miss Chang obtain questionable loans from two government-run banks.

The scandal has paralyzed the Seoul stock market and moneylending on the curb market, an extensive network of private money lenders who handle millions of

dollars in loans. Sixteen business executives, including two former bank presidenis, have been arrested. One major company has gone into receivership and another has declared bankrupicy.

clared bankruptcy.

Miss Chang's busband, Lee
Chol Hui, 59, was a former deputy
director of the Korean Central Intelligence Agency. The couple are
accused of obtaining promissory
notes from companies as collateral
for loans and then circulating them

without the consent of the firms. Kwangju Uprising Marked

Meanwhile, a series of meetings in Kwangju marking the second anniversary of a hloody uprising resulted Tuesday in a demonstra-

tion that was broken up by police. The Yonhap news agency reported that about 2,000 people gathered at the YWCA building in Kwangju, 155 miles (250 kilometers) south of Seoul, for a memorial service sponsored by Christian

9 Czech Tourists Stay In Scotland Illegally

LONDON - Nine Czechoslovak tourists were in hiding in Scotland Tuesday after jumping ship from a Soviet cruise liner, a Home Office spokesman said.

The nine tourists had a one-day permit to visit Edinburgh Monday, but failed to return to the liner Estonia by the time it sailed from the port of Leith Monday night, a spokesman said. He added that they had earlier applied to immigration officials for permission to stay longer but this had been groups. After the service, several hundred people tried to march and

held a sit-down demonstration out-side the YWCA building before they were dispersed by police.

The agency said that about 10 people were held by police but there were no reports of injuries or other incidents.

Reports said that speakers praised what they called a patriotic uprising two years ago. At that time student-led rebels occupied the city for nine days in a protest of government policy. In the easi-ing crackdown by authorities more than a hundred citizens were

The attempt to march followed a large officially sponsored rally cartier in the day in the provincial capital and a memorial service at e cometery outside the city.

Dixie Walker, 71. U.S. Baseball Star Of 1940s, Is Dead

New York Times Service NEW YORK - Dixie Walker, 71, the Brooklyn Dodger outfielder whose popularity with Ebbets Field fans in the 1940s brought him the nickname The People's "Cherce," died Monday of cancer

in Birmingham, Ala.

Mr. Walker, whose given name is Fred, compiled a 306 average during 18 seasons in the major leagues, and won the National League batting title in 1944 with

Mr. Walker started his major league career with the New York Yankees, went to the Chicago White Sox, then the Detroit Tigers and was obtained by the Dodgers in 1939, la his lirst game as a Dodger, he singled to right field in the 11th inning to beat the Boston Braves. He had some of his best games against the New York Giants, and as a result, endeared himself to the fans and became a celebrity in Brooklyn.

Fred M. Saidy NEW YORK (NYT) - Fred M. Saidy, 75, who collaborated with E.Y. (Yip) Harburg on the books for the Broadway musical hits "Finian's Rainbow" and "Jamaica" and was co-author of another, "Bloomer Girl," died Friday in

ARTS/LEISURE

The Glory of Small Museums

By John Russell New York Times Service

comments and the second recomments and the second recomments and the second recomments and the second recomments and the recomments and the recomments and recomme NEW YORK — It is a fact of life that whereas big museums are admired and prized and respected, small museums are loved. At the thought of the Frick Collection and the Morgan Li-brary in New York; the Phillips Gallery in Washington and the Queen's Gallery in Buckingham Lestole Airgin to Fi Palace, people the world over lift off into dramland. For these, and summit meeting to all Japan was regarded by not a member of the were the other at the west with in world back. We stern economic time it will come. for their equivalents elsewhere, they feel from the heart in a way that they do not for museums that are three city blocks long.

Big museums often leave them dazed and disoriented, but they re-member those small museums inch by inch. It should not be so. To the professional, a great museum is paradise, even if it may be a para-Preside | disc that has its full quota of serpents. As for the oovice, all he needs is a map, the gift of concentration and a sense of when to stop. But no matter how eagerly they go in, people often come out of big museums looking as if they had tried to make love to Kennedy Airport and got the worst of it. Nor is this a matter of individual response. It is intense, all-pervading virtually universal. Can it be, we ask ourselves, that there is an optimism size for museums?

incidents.

Ports said the ed what they called meant to nurture and refresh? This question is more than ever ing two years at topical at a time when the great museums are getting bigger and bigger. If once there was a preordained harmony between the work of art, the building in which it is housed and our optimum span of attention, it was long ago aban-doned, Bigness — or biggerness —

Can it be that the ever-expanding

museums do violence to those very

areas of the psyche that they are

Tribal Passions

There are three main reasons for this, and two of them are rational. The other relates to tribal passions that infect us without our knowing it. Museums have more and more show. More and more people want lo see it, for whatever reason. Not to have a big museum now counts as a civic disgrace. It is a symbol of civic virility, cherished even by those who never go near it. tions, but two recent events have

The first is the inauguration at the Metropolitan Museum of new installations in the area of Chinese art. The Astor Court has been refreshed and replanted to rbyme with the spring season, and in the Douglas Dillon Galleries of Chinese painting a number of new acquisitions have been bung, together with several major works of Chinese art that have lately been re-

These changes in conjunction form a kind of city within the city of the museum. They stand for the ideal of serene distinction which seems to the layman to permeate both the art and the gardening of ancient China. Not only do they stand for art of very high quality, but they counteract and repudiate the restlessness, the vain tumult and the high pressure salesman-ship that so often go with the concept of the major modern museum.

Walking through these galleries

we feel as if we could cross the Yangtze River on a reed, like the patriarch in Wo Pin's painting of "The Sixteen Lohans." Pausing before the Astor Court, we could almost fancy ourselves in the company of the gentleman-scholar Ch'en Shun (1483-1544). Ch'en Shun never had to worry about money and was therefore free to live oo his country estate where - I quote from the current issue of the Metropolitan Museum's Balletin — he entertained his friends and painted for them while he was intoxicated." We identify no less strongly with the early 12th-century Emper-or Hm-1sung, than whom oo one was ever better at painting finches on bamboo. And even if in life we barely know the froot of a horse from the back we clap our hands at the sight of the famous painting of Night-shining White, the favor-ite charger of the 8th-century Emperor Hsuan-Isung. We cannot wonder that in the 1,200 years of its existence this portrait should have annotated on more than 20

writing the Chinese for "Bravo!" and "Right on!" in those areas that the painter had left blank. The relevance of these galleries to my main argument is oot simply that they are a city within the city. We live with these considera- They are a museum within the museum - and a museum with a

occasions by enthusiasts who

could not stop themselves from

made me think about them again. human face. They prove that in the metropolis of a major museum there is a role for a micropolis where all is reason and lucidity.

The second event of direct relevance in this context is the exhbition in Washington of 40 "Dutch Paintings of the Golden Age" from the Mauritshuis in The Hague. The Mauritshuis is high on the list of small museums that everyone loves. To begin with, the house in question is a paradigm of order, tranquility, logic and good sense. Though not built as a museum, it is exactly the right size. And it owns some of the most famous paintings that ever were painted.

Those paintings look as if they had been there forever. But it is one of the lessons of the loan show at the Nacional Gallery that this is oot in the least a stagnant collec-tion. Not only is it cootinually being renewed, but the pace of re-newal has if anything been stepped up since World War II. The lesson for us, therefore, is that new buildings are oot the only sign of mu-nicipal vitality. Intelligence is here ranked above biggerness.

But the general question remains, Are we losing the art of making the museum that has a buman face? The restaurant, the department store, the movie house, the concert hall, the hospitality center and the summer prom are fundamental to the new-style big museum. Have they usurped the historic function of the museum proper, which is to act as haven and sanctuary? Or is it that some-thing is lacking in our late 20th-century selves? Do we lack the drive, the energy, the commitment and the esthetic sinew that it takes to master the Metropolitan Museum, the National Gallery of Art in Washington, or for that matter the British Museum or the Louvre?

These are large and loose ouestions. It is not true, to begin with, that the art of making the perfect small museum has been lost. Philip Johnson's building for Dumbarton Oaks in Washington is one. Another is the same architect's Museum of Contemporary Art in Corpus Christi, Tex. To see those blinding white shapes outlined across the blinding blue sea is one of the great American experiences.

There are others, too. The Cloisters in Fort Tryon Park is a pastiche from too to bottom, but it's a pastiche that a great many people have learned to love. Louis Kahn's Yale Center for British Art has some of the most finely ordered spaces that this visitor was ever privileged to walk through.

Nor has Europe lost its touch. The Queen's Gallery in Bucking-ham Palace has been fitted into the site of a small bombed-out chapel in such a way as to make us feel immediately at home there. As for the Musée de la Chasse in Paris, it bas a double claim upon us. Not only is it housed in a mansion by François Mansart, one of the great French architects, but it convinces do with it are much underrated as a subject for art. No one knows the full extent of

Claude Monet's achievement, for instance, who has not seen the big painting by him in the Musée de la Chasse. With its long line of

oess of men, guns and the driven bird, it can stand with the bunting scene in Jean Renoir's classic movie, "The Rules of the Game."

Denmark's Louisiana

When in Denmark, it is a joy to drive out from Copenhagen to the Louisiana Museum, where sea breezes come through the open door and the interior spaces adapt well to every manifestation of 20th-century art. And although the more specialized small museum is oot really relevant here, I cannot resist mentioning the Museum of the Bird Cage in Neheim-Hüsten, West Germany. People oever stop boasting of having been there.

What these places have in common is that they don't have to worry about being small. They are small by their very nature and with no discredit to themselves. It is with them as it is with the opera house at Glyndebourne in England, the Juilliard Theater in New York or the little rococo theater by Cuvilliés in Munich: smaller is

This is not to say that the big museum is a curse and a burden. The big museum came into being in response to social pressures that are still very much with us. If the museum has become a city within the city, it is because that's the way cropolitan touch.

state occds his guard of honor. Without it, we might wonder who we were. What the all-encompassing department store and the luxurious ocean liner were to the late 19th century, the big museum is to

It is to the museum that we look when the sbortfall of life outside is too much with us. It is dreamland writ in stone and marble, and posterity may decide that with all its flaws and paradoxes it has been one of the most ambitious social achievements of our time, and one of the most revealing, too.

The trick will be to keep that panoramic ambition and that buge driving energy and yet not lose the feeling for small perfections that used to characterize the museum. It is too late to go back to the scale of the private museum that Robert Adam designed for an English client in the 1770s - just three rooms, two oblong and one circular, for a collection of antique marbles. Likewise, the Old Ashmolean Museum of the 1670s in Oxford oow looks like something out of a toysbop by comparison with its successor. But if the big museum is to be what we are asking it to be the ideal metropolis, in which the art of all times and all places is at home - we must oot lose the mi-

A Mixed Bag of Openers at Cannes

By Thomas Quinn Curtiss

CANNES — Were the movies better in 1916? The 35th Cannes Film Festival posed this embarrassing question to its guests by opening with D.W. Griffith's 66-year-old spectacle "Intoler-ance." In this particular case they were. "Intolerance," a commercial failure when first seen, has had a wider and more lasting influence than any motion picture ever made

The Chinese "True Story of Ah Q," from a short story by Lu Xun, defeats itself by its grotesque portrait of a peasant's experiences before and during the 1911 revolution. tion. Its central character is drawn as a repugnant low comic, a cross between Harry Langdon in a testy mood and Joe Jackson, the circus clown, without his bicycle. This ridiculous hooligan who spits and curses everyone enlists no sympathy, which makes his story pointless, true or oot true.

The Turkish entry, "Yol," was entered at the last minute to avoid possible objections from the Turk-ish government. Yilmaz Guney, long a popular star in his home-land, has spent long sessions in prison for opposition to various regimes and on a charge of murdering a judge. He wrote the screen-play behind bars and appointed rif Goren, his assistant, to film it. Both fled Turkey - with the completed product - after his escape from prison. The film, though of primitive documentary cast, pic-tures the woes of the Kurdish population with compelling force and is persuasively acted.

Royal Flight

"La Nuit de Varennes" of Ettore Scola, appearing under the Italian banner, was shot in French and occupies itself with a French subject: the attempted flight of Louis XVI and Marie Antoinette with Restif de la Bretonne (Jean-Louis Barrault), Casanova (Marcello Mastroiznni) and Tom Paine (Harvey Keitel) in bot and unlikely pursuit, Its picturesque 18th-century decor and costuming have been caught in handsome atmospheric bues and its premise permits the literary trio to air their views on revolution, democracy and regicide as they bump along the highways in car-riages and gather to wine and dine

The British "Return of a Solder recounts the amnesia of an English officer of World War I after suffering shell shock at the front. Returning to his country mansion be can only recall a youthful romance before his marriage, an obsession that much annoys his wife. Alan Bridges has directed with shrewd eye to period

detail and in obvious imitation of shoot a war propaganda epic, Josepb Losey's staging style. There "Hearts of the World." Joseph Losey's staging style. There is a performance of the first rank by Alan Bates as the stricken soldier and excellent support by Glenda Jackson as his old love, by Julie Christie as his arrogant wife and by Ann-Margret as his adoring cousin. The script is an adapta-tion of a vintage Rebecca West

African Cinema

African cinema is represented by four imusual films, "Shadow of the Earth" by Taieb Louhichi is a brilliant initial effort disclosing the destruction of a Tunisian farming village when official regimentation is imposed, There is o poetry to its portraiture of the inner solidarity of the community, a sort of paean

to buman dignity.

Jillali Ferhati's "Puppets of Reed" coocerns feminine suppression in Morocco and its scenarist. Farida Ben Lyazid, is said to be the first Moroccan woman to enangered by the dishonesty of academic authorities and the revolt that leads to imprisonment.

"Jom" by Ababacar Samb Makharam from Senegal investigates the cultural fountain of the African past, with griot troubadours lending aid to a factory strike by their recalling of the country's traditional soul. "Intolerance," ontlining man's

inhumanity to man down the ages, tells simultaneously four separate stories: Babylon's fall to Cyrus' armies, the crucifixion of Christ, the St. Bartholomew's Day massacre in 16th-century France, and a con-temporary tale of capital-labor conflict in the United States. Its juxtaposing of its episodes inspired Eisenstein's montage technique and its revelations of the cinema's power to stir emotions impressed political leaders. Lenin invited Griffith to come to Russia to glorify Bolshevism and Lloyd George urged him to aid the Allied cause.
Griffith rejected the first invitation, but accepted the second, going to England and France to

Arts Agenda PARIS - Gomed's "Romeo et Jeliette"

returns to the Paris Opera's repertury May 22 for the first time in almost two decades in a new production under the marked direction of Alain Lemburd, steged by Georges Levu doot and designed by Jean-Herre Vergio the fifth parts will be taken by liarbare Her-tricks and Nell Shikati, with Jacques Mars, Yvas Bisson, Michel Philippe, Robert Durne, Marie McLaughlin and Anna Bingart in other principal parts. Other performances are May 25, 28, June 1, 5, 9, 12, 15, 28, July 1, 7 and 14, Fays Rubinson will sing Juliatio at the June 12 and July 14 performances.

The mammoth 1916 wonder has been restored to its three-hour length by Raymond Rohauer from 15 copies he has collected. The themes of the original score were played on a piano for its Cannes projection, although an orchestral accompaniment will be recorded for general release. Its titles were written by Anita Loos, though their melange of O. Henry slang and biblical excerpts read more like Theodore Dreiser.

There are inserts of Lillian Gish, in the Walt Whitman phrase, "ceaselessly rocking mankind's cradle," and the cast of thousands include oot only Mae Marsh, Coostance Talmadge and Seena Owen. all stars of the early flickers, but Douglas Fairbanks Sr., Sir Herbert Beerbohm-Tree and other stage notables. The Griffith moralizing is heavily Victorian, but his genius for cinematic representation and rhythm remain unsurpassed.

Jank Lang, the French minister of culture, delivered a brief ad-dress opening the festival and trophies were bestowed on several di-rectors previously honored with awards: Michelangelo Antonioni, John Boorman, Joseph Losey, Satyajii Ray, Volker Schlöndorff, Jacques Tati, Ousmane Sembene, Billy Wilder and Miklos Jancso.

POSTPONEMENT OF THE NATIONAL AND INTERNATIONAL **PUBLIC BIDDING**

SALE OF STOCK OF COMPAÑIA NACIONAL DE TELEFONOS S.A. CONATEVAL AND COMPAÑIA DE TELEFONOS DE COYHAIQUE S.A.

Corporación de Fomento de la Producción CORFO (Development and Production Corporation) hereby announces that the public bidding for the following shares has been postponed for June 8, 1982:

- Compañía Nacional de Teléfonos S.A. CONATEVAL

4.025.564 shares (80,510/o)

(National Telephone Co.)

Marine ・・ の Process (Annie) Process (

- Compañía de Teléfonos de Coyhaigue S.A. (Coyhaique Telephone Co.) (Per se and in

245.721 shares (59,930/o)

behalf of Entel) The bidding is done according to the faculties indicated in D.L. 1068 of 1975 not being subject to the prescriptions specified in Law No 18,045.

Reference terms and other information is available prior payment of \$8,000 (chilean currency) in Moneda 921 office 822.

Besides, we inform to all the interested parties who already have the reference terms that there is a technical annex to it, available for \$ 7.000 (chilean currency) which can be requested in the above mentioned address. The bids should be sent in duplicate, and in sealed envelope addressed to Vicepre-

The bids will be opened in front of the interested parties and before the Secretary General of CORFO, who will bear witness.

sidente Ejecutivo de CORFO, Moneda 921 oficina 825 on June 8, 1982 at 11:00

CORFO reserves itself the right to accept the bids that believes are more convenient or reject all of them without further comments.

EXECUTIVE VICEPRESIDENT

This announcement appears as a matter of record only.

BUSINESS BRIEFS

K mart Quarterly Earnings Off 83%

TROY, Mich. — K mart, the second-largest U.S. retailer after Sears Roebuck, reported Tuesday that its first-quarter earnings had fallen by 83.1 percent:

The company blamed the weak economy and exceptionally bad weather. Net income declined in the first quarter to \$5.85 million from \$34.6 million a year earlier. Sales were \$3.6 billion, np 8.1 percent from \$3.3 billion in the 1981 quarter.

K mart's chairman, Bernard M. Fauber, said the company will open 65 to 70 new stores this year, down from 171 in 1981 and 199 in 1980. It also olans to modernize some stores.

Du Pont Closes Part of Fiber Plant

WILMINGTON, Del. - Du Pont is planning to close permanently part of a Chattanooga, Tenn., plant that produces textile nylon fiber, the company said Tuesday. It said 500 jobs will be eliminated within 90 days and another 500 will be cur in the next two years.

The closing affects 65 million pounds of production capacity that the company said has become obsolete. The plant, which employs about 2,800 workers, will continue to produce other cylon fiber products, Du

AT&T Exchange Has New Features

NEW YORK — American Telephone & Telegraph has announced new features for its Dimension private branch exchange system that, among other things, will enable businesses to regulate office energy use, to ue in to up to 25,000 stations, conduct phone conversations and transmit com-

puter data on the same line.

An AT&T official said Tuesday that the new features makes the Dimension system "the most functionally advanced system on the market" and said additional features would be announced later in the year.

Deutsche Bank Ready for Expansion

COLOGNE — Deutsche Bank will not hesitate to increase capital when credit demand revives, shareholders were told Tuesday. Wilfried Guth, the joint management board spokesman, said the bank wanted to assure room for expansion.

Mr. Goth was optimistic about results for the year, but would not be more specific. He said the credit volume of the parent bank fell slightly

2 Canadian Security Firms to Merge WINNIPEG, Manitoba - Richardson Securiues of Canada has

agreed to merge with the Greenshields brokerage bouse. Richardson is buying Greenshields' equity interest, said a Richardson spokesman, who gave no amount for the transaction.

The merger is expected to be completed by 1983, the spokesman said. Richardson employs about 1,100 people and Greenshields about 900. The spokesman said there would be some consolidation of sales branches, but that most offices would be continued in major cities. Headquar-

ters will be in Winnipeg. E.F. Hutton, which has a 10-percent equity interest in Greenshields. will not have any interest in the merged firm, the spokesman said. The brokerage business in Canada has been hard hit by the recession, and Greenshields imposed a 10-percent pay cut on employees in February.

Belgian Mine Firms Consider Merger

BRUSSELS - Cie. Asturienne des Mines and Mines et Fonderies de Zinc de la Vicille Montagne said Tuesday that they are considering a merger. They said that studies to be conducted with Union Minière will evaluate the prospects for a merger.

Union Minière has a 28-percent stake in Vieille Montagne and a 26-percent share of Asturienne. The latter had a net profit in 1981 of 133.7 million Belgian francs (\$3.08 million) compared with 743.4 million in 1980. Vicille Montague's 1981 results have not been published. Its net profit in 1980 was 98 million francs.

India Seeks Bids for Steel Project

NEW DELHI — The government will invite foreign suppliers to bid for contracts for various parts of a steel plant to be built in eastern India, Steel Ministry officials said Tuesday.

contract with Davy McKee of Britain to build the \$2.8-billion plant in Orissa state was canceled last week after the company said it would be mable to undertake the construction and could only supply the equipment, officials said.

Subroto Sees Oil Demand

oil will rise this summer for the first time in more than a year.

At a special four-nation committee meeting on OPEC production, Mr. Subroto also said the oil cartel would stick to its current price structure, based on a benchmark price of \$34 a barrel.

"I don't think there will be a change in the official price of OPEC," he said, before entering a

closed-door committee session. The committee, comprising Mr. Subroto and the oil ministers of Algeria, Venezuela and the United Arab Emirates, is expected to rec-ommend extending the production ceilings OPEC members agreed to at an emergency meeting two months ago in Vienna.

Spring Meeting

The 13-nation organization will consider the recommendation Thursday, when it holds its regular spring meeting in Quito, Ecuador. Earlier, sources said OPEC will oot lower its prices this year. The sources said the organization had concluded that the world oversupply of oil would end this summer and that prices would remain ocar current levels. Standard Oil of Cal-iformia forecast recently that the glut should be absorbed by July 1, and that OPEC production is likely to pick up afterward.

The Vienna agreement to limit total OPEC production to 17.5 million barrels per day came as world oil prices were tumbling and oil sales by some cartel members were rapidly declining. Since then, prices on the open market have recovered to near the level of official

OPEC cootract prices.

Mana Said al-Oteiba, the president of OPEC and the oil minister of the United Arab Emirates, said Monday that current OPEC production is "something like" 15 millico barrels per day, about half its

peak output three years ago. He also said OPEC was committed to restricting its production to keep prices from falling. One of the biggest uncertainties facing OPEC is economic recovery

in the United States and Europe. Marc S. Nan Nguema, the car-tel's secretary-general said, "OPEC has the impression that the Ameri-can economic recovery has been delayed." The United States buys

Brock Urges North-South Trade Talks

Resters
WASHINGTON — The United WASHINGTON — The United States has proposed a new round of talks aimed at improving trade relations between the world's rich and poor nations, U.S. Trade Representative Bill Brock announced Tuesday.

In outlining the U.S. proposal, Mr. Brock told the National Press Club that less developed countries

Club that less developed countries should provide greater access to their markets in exchange for lower tariffs on their exports to the developed countries.

"I bave asked our trading partners to consider calling for a North-South round of trade nego-tiations in GATT (the General Agreement on Tariffs and Trade),"

Preferences Lost

He said the United States would support a new "third tier" of tar-iffs within the GATT for oewly industrializing nations.

Currently, less developed countries are entitled in lower tariffs for many of their exports under the Generalized System of Preferences mechanism (GSP). But, as their competitiveness grows, the prefer-ences are lost for certain products and the poor nations become subject to the same tariffs levied on developed countries.

According to a U.S. Trade Office official, Washington envisions a middle level of tariffs for less developed countries no longer eligible for GSP treatment.

In exchange, Mr. Brock said, "It's time we began to negotiate away some of the barriers to trade in the developing world."

"Developing countries currently are conducting their trade and trade-related policies largely uo-fettered by multilateral discipline,"

Positive Response

The Trade Office official said the United States has discussed its proposal with its major trading partners and received a generally positive response. But some of the developed nation's "are concerned about how this would affect their own competitiveness," he acknowl-

On another issue, Mr. Brock said so-called reciprocity legisla-tion, which would require the United States to restrict imports from countries that discriminate against American goods, is oot occessary. He said that international agreements already provide adequate recourse to correct trade

But he said he would welcome ministration more flexibility to deal with trade discrimination in the field of services.

Volvo Reduces Reliance on Cars

By John Vinocur New York Tunes Service

GOTEBORG, Swedeo - Volvo, Scandinavia's biggest company, is approaching auto manufac-turing as if, over the long term, the company real-ized that almost everything else it does has greater

potential than making cars. lo 1971, about 75 percent of Volvo's revenue involved autos. Now it is about 25 percent. Oil trading, a Volvo activity since the Scandinavian trading company Beijerinvest became part of the Volvo group last year, accounted for greater sales in 1981 than cars did. And the group's food-processing companies represented greater volume

than the bus division.

Volvo had total soles equivalent to more than \$8 billion last year. Its pretax income amounted to \$242 million. The company employs 76,100 peo-ple, 19,500 of them outside Sweden. Volvo is still, determinedly, an industrial en-

terprise. But at the same time, moving money and oil around through Beijerinvest is the largest single item on last year's balance sheet.

The company, after a profitable year, is not deep in an ideouty crisis. Yet Bo Ekman, Volvo's senior vice president for finance, talks quite eagerby about further reducing automobile manufactur-ing's share of the group's overall activities.

"I haven't sensed a change in corporate mood since we took in Beijerinvest," he said, "We don't

define ourselves as a conglomerate or a detached investor; we are an industrial group for whom quality and technology are very important.

If cars represented 15 percent of business in time, that would be great." he added. "It would mean a very nice kind of development in other areas: I doo't foresee a major expansion in manu-

facturing capacity."

Volvo's doubts about the automobile business began a decade ago when, Mr. Ekman said, the company became convinced "not in get cornered, oot to get landlocked" in cars. The next 10 years were a time of working on changes corresponding to Swedish realines: extremely high production costs and a tiny domestic market.

Some of the decisions were obvious, such as concentrating oo trucks and buses, where the competition was thinner, and aiming car production at a very sharply defined segment of the market the upper-middle-class family car.

It was also a time of attempting to broaden the privately owned group's base and generate capital.

An attempted merger with Saab-Scania, another
Swedish motor vehicle maker, fell through, as did a deal that would have made Norway a major Vol-

vo partner.
The Beijerinvest operation was completed in April, 1981. Officially, it was Volvo paying \$405 million to acquire a company with extensive inter-

Chase Discloses Risk Of 'Significant Claims' On Securities Loans through the securities services divi-sion of its institutional banking de-

From Agency Dispatches
NEW YORK — A small government securities firm that reported-ly has suffered heavy losses may expose Chase Manhattan Bank to "significant claims," the bank said Tuesday. Chase disclosed that the firm is unable to pay \$160 million in interest owed on borrowed secu-

Chase did not identify the firm, but sources said it is Drysdale Government Securities Corp. of New York. Government bond market sources said they believe several major brokerage firms had been involved in lending securities

The firm's troubles prompted fears that liquidity will be tight in the government securioes market. Late Tuesday, the Federal Reserve announced that it was ready to assist commercial banks in meeting unusual credit demands related to

debt market problems.

The news also helped depress share prices. Chase shares fell \$3.25 in beavy trading and closed at \$48.75.

The size of the interest bill indicates that the amount of securities involved is large, analysts said.

Wall Street sources said Drys-

dale had lost beavily on govern-ment securities. They said the firm took as much as \$4 billion in short positions, selling borrowed securi-ues with the hope of being able to replace them later at a lower price.
Richard Taffe, president of
Drysdale, conceded that the firm "had a problem" but refused to comment further.

Chase said it had a "significant volume of transactions processed

with Drysdale Government Securispokesman for Goldman A spokesman for Goldman Sachs said that his firm bas had securities dealings with Chase and

partment which were related to borrowings and loans of securities

by the securities firm."
When the Drysdale said it could

not meet interest payments on the borrowed shares and did not make

a public statement, "Chase, as the processor, felt obligated to do so," a spokesman for the bank said.

Chase said it is unable to accu-

rately assess the extent of the claims that may be made against it. Other firms that have been in-

volved in transactions relating to the securities firm's activities have asserted that Chase is liable for

losses they may sustain, the bank said. But Chase added that it does not consider itself liable for the po-

In response to an inquiry, a spokesman for Merrill Lyncb said

that in the normal course of busi-

ness it has loaned securiues to Chase Manhattan and that some

of those securities could have been

loaned by Chase to Drysdale. The spokesman added: "We have ou-

merous satisfactory relationships with Chase Manhattan Bank. In

this instance, we have dealt with

Chase, and we expect that they will honor their obligation to us," be

said, adding that the obligation "is oot material."

The spokesman said Merrill

Lynch has had no direct dealings

tendal losses.

expects the bank to "meet its obligations as they always have in the Salomon Brothers, one of the

firms that sources said may have been involved, said it had no comment on the matter.
On the credit markets Tuesday,

dealers said, traders were hesitant to take positions because of the uncertainty surrounding Drysdale.
Bond prices were little changed in
early trading.
Drysdale. Securities Corp., a
dealer in bonds and options, bas a
small holding in Drysdale Govern-

ment Securities, but a spokesman for the former said the two are separate entities. The president of Drysdale Securities Corp., Peter Wasserman, said any financial problems of Drysdale Government Securities would have no bearing

Analysts said the market's weakness reflects pessimism over the di-

Regan Fears Recovery May Be 'Very Anemic'

From Agency Dispatches
WASHINGTON --- The United States will have only "a very anemic" economic recovery this summer before slipping into another recession unless Congress finds a way to reduce budget deficits, Treasury Secretary Donald T. Re-

gan said Tuesday.

"We're going to continue with high rates of interest unless they do something about those deficits," Mr. Regan said on a televi-sion news program. "I think it is incumbent on the Congress to do

The Treasury secretary, who de-clared a month ago that the economy was "dead in the water," said that there are growing signs that a recovery is about to occur. The economy is "starting to inch ahead, but it really hasn't gotten under steam yet," he said.

Personal Income Figures If Congress and the White

House can agree on a budget compromise that encompasses spending cuts and tax increases, be said, micrest rates will fall and the economy will grow at an annual rate of 4 to 4.5 percent in the first two quarters of the recovery. Without a budget compromise, Mr. Regan said, the recovery will be very weak "and then we'll go right back into enother recession." into another recession

The Commerce Department re-ported Tuesday that personal in-come rose a modest 0.3 percent in April. Personal consumption spending, however, rose 0.5 per-cent after declining 0.6 percent in March, the report said.

Chase Report Helps Push NYSE Prices Down despite a slight moderation in the Street about potential business growth of the mooey supply. dale Government Securities, which Drysdale's troubles also raised

From Agency Dispatcher
NEW YORK — Prices on the
New York Stock Exchange drifted
lower Tuesday as bank shares declined on the news that a government securities firm was unable pay \$160 million in interest owed to Chase Manhattan.

The Dow Jones industrial average was on the down side all day and closed with a decline of 4.47 points, to 840.85. Declines led advances by around five to two.

Volume rose to 49 million shares from 45.6 million Monday, when the industrials sank 12.46 points, the biggest drop since Feb. 22.

al funds rate, charged on overnight loans between banks, has held firm at about 14.5 percent since Friday

The department also reported an unexpectedly sharp decline in housing starts. Starts in April fell

6.4 percent to a seasonally adjust-ed rate of 881,000 units, the lowest

since last November and 32.3 per-

cent below the year-earlier level. For March, the department revised

its report to a decline of 0.4 per-cent from the increase of 2.5 per-

The department said new per-

sonal savings rose 4.2 percent to a seasonally adjusted annual rate of

\$135.4 billion in April. Personal

savings equals after-tax income minus total personal spending.

income rose to a seasonally adjust-ed annual rate of \$2.53 trillion in

April, while personal consumption

spending — outlays for virtually everything but taxes and consum-

er-credit interest - rose to an ad-

Personal income fell slightly in

December, its first decline since 1975. Since then it has risen at a

sluggish pace, increasing 0.3 per-cent in January, 0.6 percent in February and 0.4 percent in

The report said total personal

cent reported earlier.

justed \$1.95 trillion.

Analysts said stock prices also

came under pressure from the Commerce Department's report of a 6.4-percent drop in April housing starts and a revision in March starts to a decline of 0.4 percent from the originally reported rise of 2.5 percent.

Chase Manhattan fell \$3.25 in active trading, closing at \$48.75. The bank holding company said claims may be filed against it in

was reported to be unable to pay about \$160 million in accrued interest on borrowed securities.

Some investors took the development, which occurred less than a week after Braniff International filed for protection under Chapter 11 of U.S. bankruptcy law, as a sign of the severity of the present recession. Many analysts said the early selloff in Chase stock was emotional but added it demonstrated the nervousness on Wall

fears that liquidity will be tight in the government securities market, which could hurt other banks. Other banks with losses included Citicorp, off ¼ to 25%; Morgan Guaranty, 1% to 52; Manufacturers Hanover, 1 to 29; Bancal Tri-State, 1% to 19%, and Bankers Trust, 1% to 30.

Metromedia also rose after saying it had completed the acquisition of a Boston television station.

Honeywell advanced technology cuts energy costs in your building

Advanced technology is the key to reducing energy consumption. Honeywell has it. Micro-electronic and micro-processor based. We apply it in space to the Columbia Space Shuttle and here on earth to reduce your energy costs.

Saved energy through conservation is the cheapest and most readily available source of alternative energy. Our technology lets you tap this source. Right now. It offers you the opportunity to reduce the energy used in your building or building complex by as much as 15 to 30%.

No matter how new or old. large or small; no matter what function.

Our highly advanced micro-electronic building controls and systems are inexpensive. Amortisation of installations can be as little as six months and rarely exceed two years.

Of course, your energy and cost savings go on and on. Seeing is believing. So let us show you exactly how Honeywell can cut building energy costs significantly. Including a dossier full of impressive case

UNITED STATES BANKRUPTCY COURT CENTRAL DISTRICT OF CALIFORNIA

In re

WICKES COMPANIES, INC., a Delaware corporation; THE WICKES CORPORATION: a Delaware corporation;

GAMBLE-SKOGMO, INC., a Delaware corporation and affiliates, Debtors.

Cases Nos. LA-82-06657-WL through LA-82-06665-WL; LA-82-06755-WL and LA-82-06756-WL; LA-82-06933-WL through LA-82-06935-WL, etc.

ORDER AND NOTICE FOR MEETING OF CREDITORS, OF AUTOMATIC STAYS, NOTICE PROCEDURE AND CAPTION OF PLEADINGS

TO THE DEBTORS, THEIR CREDITORS, AND OTHER PARTIES IN INTEREST: Orders for relief under 11 U.S.C. chapter 11 having been entered on petitions filed by the Debtors listed on

Exhibit A on April 24, 1982, it is ordered and notice is hereby given, that:

A meeting of creditors pursuant to 11 U.S.C. Section 341 (a) and local Bankruptcy Rule X-1003 shall be held on June 3, 1982, at 10:00 o'clock a.m., at the Los Angeles Convention Center, 1201 South Figueroa Street, Los Angeles, California 90015. The United States Trustee will preside.

The Debtors shall appear by Sanford C. Sigoloff, Chief Executive Officer of Wickes Companies, Inc., at that time and place for the purpose of being examined.

You are further notifed that:

The meeting may be continued or adjourned from time to time by notice at the meeting, without further written notice to creditors. At the meeting the creditors may file their claims, examine the Debtors, and transact such other business as may

As the result of the filing of the petition, certain acts and proceedings against the Debtors and their property are stayed as provided in the 11 U.S.C. Section 362 (a).

The Debtors have filed a list of creditors pursuant to Local Bankruptcy Rule 1007. On or before September 1, 1982, the Debtors will file schedules of their Debts and Properties. Any creditor holding a claim which is not scheduled as disputed, contingent, or unliquidated as to amount, may, but need not, file a proof of claim unless the Court orders otherwise. Creditors whose claims are scheduled or whose claims are scheduled as to amount and who desire to participate in the cases or share in any distribution must file their proofs of claim on or before a date to be set by later order of this Court as the last day for filing proof of claim. Any creditor who desires to rely on the schedules has the responsibility for determining that he is accurately scheduled. All proofs of claim, not filed at the meeting of creditors, shall be filed as follows:

Deputy Clerk United States Bankruptcy Court Central District of California c/o The Wickes Companies 1010 Second Avenue San Diego, California 92101

The Debtors have filed an "Application for Order Establishing Notice Procedure; and Order Thereon," requesting that notice of cartain sales of property, of compromises, and of applications for compensation and reimbursement be given only as required by Local Bankruptcy Rule 2002(e) and (f), and this Court has granted such Application. Therefore, any party in interest that desires Special Notice of such matters shall file with the Court and serve on counsel for the Debtors-in-Possession a Request for Special Notice, as required under Local Bankruptcy Rule 2002(e). Such Requests shall be served on counsel for the Debtors-in-Possession by mailing a copy thereof to:

Counsel for Wickes Companies, Inc. c/o Cathy Cooke Gibson, Dunn & Crutcher 2029 Century Park East Los Angeles, California 90067

Objections relative to any matter the subject of such notices given by the Debtors-in-Possession shall be in the form of a motion, shall be governed by Local Bankruptcy Rule 904 and shall be filed with the Court and served upon counsel for the debtors in possession (as designated in the notice) within ten days after service of such notice. The Court has reserved the right to modify these provisions relating to Request for Special Notice on motion of any party in interest. The Bankruptcy Court Order provides that all pleadings filed in any or all of the Chapter 11 cases of any or all of the Debtors shall use the caption and Cases Nos. set forth on this notice. Further, the Order provides that all pleadings filed in any or all of the Chapter 11 cases shall either indicate that all of the Debtors are parties to or are affected by the pleadings or each pleading filed shall indicate which of the Debtors are parties to or are affected by the pleadings.

Counsel have requested the Court to hold a hearing to establish procedures for the payment of interim compensation. That hearing will be held before the Court in courtroom H, United States Courthouse, 312 North Spring Street, Los Angeles, California 90012, on June 24, 1982, at 9:00 A.M. Counsel will request that the Court authorize the monthly payment of compensation to counsel at 75% of their respective hourly rates. DATED: April 24, 1982.

BY ORDER OF THE UNITED STATES BANKRUPTCY COURT JACK L. WAGNER **CLERK OF THE COURT**

NOTIFICATION RE PLEADINGS TO BE

FILED AND REQUESTS FOR REPRODUCTION The Office of the Clerk of the Court has directed that:

All pleadings be filed in triplicate; r than requests for cartified copies he directed to the debtors in possession not to the Clerk's office. Such requests should be mailed to:

Wickes Companies, Inc. c/o Cathy Cooke Gibson Dunn & Crutcher 2029 Century Park East

Los Angeles, California 90067 Advance payment of \$0.50 per page will be required and should be included with any requests.

Banks Agree To Argentine Debt Proposal

By Robert J. Cole
New York Times Service

NEW YORK - Argentina's finance minister, Roberto Alemann, says he has received assurances from international bankers that they will continue to roll over Argentina's short-term debt until the Falkland Islands dispute

Banking sources said they would go along with the Argentine request because, as one put it,

There's no other way."
Interviewed by telephone Monday in New York, before he remimed bome after a trip that in-cluded a stop in Zurich, Mr. Alemann said that \$700 million of debt has been paid off this year and that payments are contin as they come due. The total debt was estimated at \$35.7 billion at the end of 1981.

Mr. Alemann said Argentina has asked the banks to "maintain the exposure they have, that they roll over their credits until Argenti-na can go to market with syndicate loans." Asked when that might be, he replied, "When the conflict is

The minister said that Argentina is trying to substitute \$3.5 billion in medium-term debt for short-term debt now outstanding and that by early April, when Argenti-na invaded the Falklands, more than a third of the substitution had

been completed.

He added that if the conflict is resolved diplomatically, the bal-ance of the \$3.5-billion goal is expected to be arranged quickly by "returning to the market with syndicate loans." If the conflict continues, he said, Argentina would need time for a return to the mar-

Meeting at the Argentine Con-sulate in Manhattan with 69 bank-ers from the United States, Canaand Japan, Mr. Alemann said his government's economic program — calling for a reduction in the federal deficit, a return of

Europeans Favor Delay in Raising **Export Loan Rates**

BRUSSELS — Finance ministers the European Economic Community have proposed to delay until mid-June plans to raise export credit rates, according to Beigium's finance minister. Willy Britain and France, among oth-

ers, are strongly opposed to some aspects of the compromise plan to raise rates for government-backed export credits.

The plan, put forward by Sweden after a conference earlier this month failed to produce an agree ment calls for rates higher than those favored by most EEC nations but lower than those sought by the United States. Japan and the United States have expressed support for the plan. France and Britain, however, object to the way the proposal would raise the rates while also reclassifying many de-veloping countries into categories that would mean they would pay still higher rates.

Speaking to reporters after an informal ministerial meeting Monday night, Mr. de Clercq said the EEC Commission will be asked to sound out opinion in other major industrial countries on the scope for revising the plan.

The current accord on export credits expires at the end of May.

New IBM Display Writer

N.Y - International Business Machines will introduce an entry-level display writer sys-tem selling for \$6,760, including a software license (ee, the company said Tuesday. Previously, IBM said, its lowest-priced display writer system sold for \$8,245.

EEC Official Sees 'Blood on Floor' If the U.S. Slashes Steel Imports

By Jane Scaberry Washington Post Service

WASHINGTON - A highranking European Economic Comofficial has warned the United States that its tough talk about possible trade sanctions against European steelmakers could have serious repercussions.

possibly including noting by Europe's unemployed.

The official, who asked that his name not be used, told reporters Monday that he was speaking on behalf of the EEC. While not be used itself asked to the careful in threatening direct retaliation against the United States by Europe, be said U.S. actions could lead to "a lot of blood on the floor" politically.

If the Reagan administration

Roberto Alemann

state-run industries to the private

sector and lower inflation — has been slowed by the Falkland crisis

but is still "moving ahead."

He said that Argentina's president, Gen. Leopoldo Galrieri, would not take action on any of the state-run industries "while the conflict is on."

In Zurich last Friday, Mr.

Alemann spoke before 44 bankers from nine countries. No British

banks were represented. At that

meeting too, the Argentine official said, he received assurances that

short-term debt will be rolled over.

banks. Under existing agreements,

takes drastic measures against foreign steelmakers, European offi-cials may feel pressure to take ac-tion oo U.S. farm products, for example, or the Domestic International Sales Corp. system, which allows U.S. companies overseas to defer certain taxes indefinitely. The Europeans have said the

dy, but last year agreed to drop the complaiot temporarily. The EEC official said pressure may build to renew complaints against the sys-

The official was particularly critical of the decision last week by Commerce Secretary Malcolm Baldrige to consider imposing retroactive duties oo any foreign steelmakers found to have violated trade laws. Mr. Baldrige, who is under pressure from the steel industry and Congress, said be may invoke an unlested section of the Export Administration Act of 1979, allowing him to impose penalties retroactively by up to 90 days.

The department is expected to make preliminary findings next month on 55 complaints by the U.S. steel industry against foreign makers. The complaints allege that European and other foreign steelmakers hurt U.S. steelmakers by flooding the United States with imports priced below production costs or supported by government subsidies.

the decision was intended to "penalize sudden foreign steel imports" into the United States alregedly made in an attempt to beat the imposition of an import ruling next month. Mr. Baldrige said the retroactive clause "serves notice on importers and foreign suppliers that we will not allow the law to be flouled."

The EEC official said "it is in the interest of the United States not to be too extreme in interpreting" subsidies law in regard to the cases. The official denied, howev-er, that the Europeans are asking for special favors from the Reagan administration. He said U.S. officials should consider the interna-tional effects of their actions against trading partners.

The steel issue is critical in European countries, whose steel sales to the United States total \$2 billion a year. Since 1974, 250,000 steel jobs have been lost in Europe. The official warned that a harsh U.S. move could cause riots in Europe and noted that 10,000 unembisidies. ployed steelworkers in Brussels al-The Commerce Department said ready have held protests.

Volvo Reduces Reliance on Cars Some of the questions dealt with the position Argentina might take if non-British banks share Argen-tine loan repayments with British

Mr. Alemann said that Argenti-Anders Wall, the man behind na would continue to pay the non-Beijerinvest, was made chairman of the board of Volvo, while Pehr G. Gyllenhammar, who had been British banks, even though they shared with British banks, but that "Argentina will not replenish the president, was given the titles of shared part to the non-British chief executive officer, managing director and chief corporate Shortly after the Falkland crisis

began last month, the Argentine government said it had set up an account to hold British loan repay-"Either you change with a hatchet, or you change by evolu-tion," Mr. Ekman said. "This is more evolutionary; you could say our development is partly circum-stantial and partly willed." being paid into the account at the earning interest. He declined to

Truck production currently provides more profit than automobile manufacturing for the company. Volvo now makes about 300,000

Lloyd's to Alter War-Risk Policy

LONDON - Underwriters at government's request for all com-

derwriters are following the British

panies to cease to extend, renew or

do any new business with Argenti-

A spokesman for Delta Steam-

ship Lines, one of the largest American shippers to South Amer-

ica, said that the Lloyd's action

would not affect service to Argen-

tine ports but that the company

would face the prospect of in-

creased insurance premiums on

major Argentine port affected by the cancellation.

such shipments.

rope, an American-looking sedan called the 760GLE, which it will introduce in the United States this

The car division had a bad experience with its less ambitious 340 series, which has lost the equivalent of \$119 million.

The United States, where sales have increased, is now Volvo's most important market. Business in West Germany, another important target, has declined, however.

But everything has gone up in the truck market, where Volvo doubled its production during the 1970s. Io spite of the diminished size of world sales, Volvo increased its share last year after a record year in 1980. It now outsells Daimler-Benz io Britain and is elose in France, Italy, the Netherlands and Portugal.

The big Volvo effort on the truck market came last year, with cart a year and has brought out a its purchase of most of the assets new top-of-the-line model in Eu-

Lloyd's decision is a zone extend-

A Lloyd's spokesman said the

Delta currently sends four vessels a month to Buenos Aires, the major Argentine poor efforts.

DIVIDEND PAYMENT

At the Annual General Meeting of Shareholders in Luxembourg on May 11, 1982 it was resolved that a dividend of USS 1.40 per share be

payable for the year ended December 31, 1981. In respect of bearer shares, the dividend will be payable from June 1, 1982

at any one of the offices of the Company's paying agents on surrender of coupon N°10.

risk rate.

truck manufacturer, for about \$70 million. "To be a survivor in the truck market, we bad to get into the United States," said Sten Langenius, president of Volvo's truck division. "It would have taken too loog and been too difficult to go about it another way."

Volvo White Truck to a 10-percent share of the U.S. market from its current 5.8 percent. Volvo will make heavy use of the New River Valley, Va., plant takeo over from White, but Mr. Langenius said it would not make much sense to manufacture engines and gearboxes anywhere but Europe.

The Volvo truck divisioo's vigor ket. It has two buses being tested

ing between latitudes 60 degrees south and 34 degrees south and longitudes 70 degrees west and 50 degrees west. This includes the 200-mile exclusion zone around the Falkland Islands as well as the entire Atlantic coast of Argentina, but Uruguayan waters are exclud-

Mr. Langenius' goal is to push

has a parallel in Volvo buses, where it calls itself the second-biggest exporter next to Daimler-Benz. Now, Volvo has made up its mind to enter the American marby New Jersey Transit, and will enter bids in various places soon.

The loog-term plans, depending oo acceptance and volume, would involve building bodies at Volvo's Chesapeake, Va., plant.

Burger King Names Chief

MIAMI — Burger King, a unit of Pillsbury, said Norman Brinker will succeed Louis Neeb as chair-man and chief executive officer, cffective June 1. Mr. Brinker is president of Pillsbury's restaurant

BOOKS

PUTTING THE RECORD STRAIGHT The Antobiography of John Culshaw

By John Culshaw. 362 pp. \$17.50. Viking Press, 625 Madison Avenue, New York. N.Y. 10022.

Reviewed by Michael Darda

A NYONE who listens to classical music probably owns at least a couple of records produced by John Culshaw. Berween 1946 and 1967 he was the manager of the classical divi-sion of Decca Recording Co. In this autobiography, nearly complete at the time of his death last year at age 55, Culshaw relates his professional encounters with conductors (Beecham,

Best Sellers This list is based on reports from more than 1,400 bookstones throughout the United States. Weeks on list are not necessarily consecutive. Myrer

Solti, Karajan), singers (Birgit Nilsson, Joan Sutherland, Franco Corelli Leontyne Price), performers (Clifford Curzon, Rubinsein), and composers

(Benjamin Britten).
As a producer Culshaw was responsible for assembling musicians and singers, setting up recording schedules, overseeing engineers, placating spouses, maestros or bosses, and finishing the job oo time and in to-standards. During the period be-worked for Decca — the book ends just before he left in 1967 to become director of musical programming at the BBC — Culshaw belped transform a small, second-rate company into the most prestigious of European record. ing operations.

ing operations.

His special love being opera and vocal music. Chishaw recalls with particular pride the making of Solti's aurally spectacular "Das Rheingold."

Karajan's sexually ecstatic "Tristam and Isolde" and Britten's moving "War Requiem." Besides these high spots, he details the inner workings of Decca — it seems that none of its upper-level executives knew law a per-level executives knew how a record was made - and recollects the antics of legendary musical figures.

Once conductor Ernst Ansermer

played his recorded interpretations of "Petrushka," "The Firebird" and "The Rite of Spring" for Stravinsky. at least two hours of music, during which the composer sat silently. "When the last oole of the last work had sounded, even the tacitum Ansermet could not resist asking Stravinsky what be thought." I think," Stravinsky said, "there is something wrong with your pickup." The musically meticulous George Szell, listening in on a pi-ano concerto rehearsal with pianist Clifford Curzon and conductor Hans Knappertsbusch, sent a note to Curzon, congratulating him on his performance, "despite all that was going
oo around you." Recording a Mozart
coocerto. Rubinstein insisted that his
piano "be releatlessly loud through out, irrespective of dynamics, tone quality, or whatever Mozart might have written for the orchestra." Culsbaw's captivating, self-depre-

cating memoir concludes with a pro-file of the National Symphony's Mstislav Rostropovich to the early 1960s: "I have oever known anyone like

Rostropovich, which is probably be-cause there is oobody like him. A year or two earlier he had played virtually all the repertoire for cello and orchestra during a series of London concerts, and I came away convinced that he was indisputably the greatest io-strumentalist of our time. To my ear, he never made mistakes, either technically or musically, and his commi-ment to whalever he was playing seemed total. . . In Kingsway Hall he worked as I had never, in all the years, seen an artist work before; he could hear, and wanted to correct, in: perfections which were oot always ap-parent to me or, I think, even to Britten. The orchestra observed all this with something like awe.—yet he was not beyond turning to the first cellist and asking how he would bow or finger a particular passage. It was just a question of music-making, and noth,

ing else (but nothing else) mattered."

This is an engaging autobiography by a man who was himself utterly mad about music. Readers who enjoy it should look up Culshaw's other books, especially "Riog Resounding," with its full account of Solis's recording of Wagner's "Riog" cycle.

Michael Darda is on the staff of the Washington Post

Siberian Crane Born

United Press International BARABOO. Wis. — A Siberian crane broke through its egg shell Thursday night and became the second ever born in captivity. A group trying to preserve one of the world's most endangered species promptly oarned the chick "Gandhi" after Indira Gandhi, India's prime minister. Scott Freeman, spokesman for the International Crane Foundation, said it was named after Mrs. Gandhi because was named after Mrs. Gandhi because of ber efforts to save the species by establishing the Keoladeo Ghan Na-tional Park as a sanctuary for migrat-

BRIDGE

By Alan Truscott

THE casual tennis player with little experience never has the opportunity to play doubles with, say, John McEnroe, And if be did, oervous ten-sion would probably cause him to double-fault repeatedly.

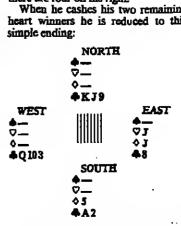

Bridge players of comparable ability do sometimes have such an oppor-

unity, with fewer signs of oervous collapse evident. A type of problem on which the novice always fails and the expert

succeeds almost without thought is shown in the diagram. South opens snown in the diagram. South opens one no-trump and is raised to three, North deciding — reasonably — that a slam in clubs is a remote prospect. West's spade lead strikes gold in his partner's hand, and the defense takes four tricks in the suit.

West then shifts to a heart, and South can see eight sure tricks. He tests the diamoods, and finds that there are four on his right. When he cashes his two remaining

heart winners he is reduced to this

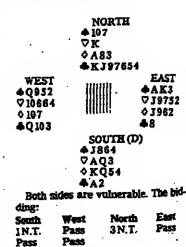

After the ace and another club are played, the moment of truth arrives

when West follows with the ten. the novice usually plays the king either because he is alraid of going down two tricks or because someone once told him "eight ever, nine never"—a rule of thumb that is venerable but oot valuable.

It is true that wheo missing the

queen it is usually right to finesse with eight cards in the combined hands, but with nine the right play is a virtual

In this case there is no guess for the expert. West is known to bave begun with four spades and two diamonds. If be had two clubs originally he would have had five hearts and would have led them in preference to a weak four-card spade suit. His distribution must have been 4-4-2-3, and the finesse is a virtual certainty.

West led the spade two.

reheard sat to propel balls 500 feet.
His seizure of a swing seems like a paroxysm intended to (1972 on and code dislocate a shoulder or wrench a knee with its corkscrew

dislocate a shoulder or wrench a knee with its consistent violence. Yastrzemski seems to hate the ball, wish it personal interpretation of the personal int Ruhustan mand Rubunsten many has held his hands as high as if a thug had just poked a gun felentlesh had in his ribs. He has waggled and he has been frozen. And, in specure of diame recent years, he has resembled a man leaning forward to peek around a corner while simultaneously hailing a taxi by

As he has changed his hitting tendencies, changed the game at a time for the sake of the game itself and for the

"book" on himself, Yastrzemski has been almost everything

except "normal."
"I've tried so many different things there wouldn't be enough pages in a book for 'em," said Yastrzemski, who has been an opposite-field hitter (early years), an all-fields power hitter (midcareer), then a "dead pull" hitter. Along the way, he has changed from a fastball hitter to a guy who could kill the breaking ball and then back back.

Now, Yastrzemski looks almost conventional.

"I kept telling him," said Walt Hriniak, the Red Sox bat-ting coach, "that every good hitter, somewhere in his swing, reaches a point where his hands are ear-high and cocked at about a 45-degree angle. So why not start it there? Very logical Common sense.

Gone is that awkward, off-balance crouch. "It was tough standing that way," Yazırzemski said, "let ainne swinging... But before I hurt my Achilles [in 1979], I was tearin' it up with that stance."

Only with Yastrzemski would such "logic and common

sense" seem out of place. His baseball signature has always been a defiant Dali scrawl — utterly different. Now, the time has passed for being solitary. He is more than glad to heed a coach's nagging, to trade glory for fellow feeling.

The Yastrzemski face, which seemed made with heroic melancholy in mind, oow seems relieved that the days of superstardom, of chasing 3,000 hits and 400 homers, are over. No more megarecords are within his reach.

The Red Sox themselves, stripped of big names, are no longer burdened with too-great expectations. Yastrzemski can relax, a little, at last.

On the bench, be hlends easily, talking about how "Burgy [reliever Tom Burgmeier] and I caught a half-dozen walleyes today." Instead of being the man perceived as lonking over the manager's shoulder, Yastrzemski and skipper Ralph Houk are buddies.

If Yastrzemski had a spare life to live, it wouldn't be hard to imagine him using it to duplicate Houk's rise from pri-vate to major as an armored division Ranger who got the Silver Star, Purple Heart and Bronze Star; a hero at Bastogne, in the Battle of the Bulge.

Houk said recently, "I'm lucky that my veterans, like Yaz, are hard workers by nature. That rubs off....

"Statistics don't mean anything. It's the things you do that win that count, like all the runs Yaz drives in from secood base with two out. I came to the ballpark late today so that damned [injured] Yastrzemski couldn't talk me into potting him in the lineup."

All the weight isn't on Yaztrzemski. When he has an inju-

ry, such as his current pulled groin muscle, he can take three games off to heal and nobody makes it a federal case. "I've learned that I oeed some time off oow to give the muscles a chance to rebound," said the longtime Mr. Play With Pain.

Finally, baseball has become simple and pleasant - one

Carl Yastrzemski ... I'm really swinging hard again.

hushy-tailed young team that reveres him. "I don't look back ooe day or ahead nne day," said Yasırzemski. "I forget yesterday. Only today matters, helping the club today.

"This team is a good mixture, a very close club that pulls for each other. . . a hell of a unit. Just watch the reactions on our bench. If you're a little down, all of a sudden guys are patting you oo the back, shaking your hands, getting you

psyched up."
Why is Yastrzemski — second in history in games played, fourth in bases on balls, seventh in total hases, 10th in hits, 11th in extra-hase hits, 12th in ruos batted-in — still aggravating himself with grain pulls and the search for new

"Want to get it all one time," he says, meaning the world title no Boston Red Sox team has won since 1918, "Don't know whether we will or not, but we'll be in there fighting." This time, together. No I's - just we's.

Astros Break Phillies' 7-Game Streak With 8-1 Triumph

Io Chicago, Carltoo Fisk homered and singled to drive in four runs and Harold Baines had three runs batted-in as the White Sox beat Texas, 8-6. Dennis Lamp (4-0) pitched 87 innings before Salome Barojas came on to record his 10th save after the Rangers after had scored five times in the

Royals 7, Yankees 0

In the Amereican League, in Kansas City, Larry Gura pitched a seven-hitter and George Brett and Willie Wilson each had three hits to help the Royals whitewash New York, 7-0. The Yankees traded Gura (4-1) to Kansas City in 1976; since then, be has had a 74-40 record overall and is 11-2 against New York. Of Gura, Yankee Manager Gene Michael remarked: "I don't know why he's so effective against us. Your guess is as good

good fortune was ours to see it.

And while language is scarcely villa's forte ("I dou't learn good, I am lazy man"), I doubt his vision or version of that crowning effort is any clearer in Spanish. The goal came from deep within him - a man compulsively obeying a child-

And Villa, we know, is prone to

Argentine in Spotlit Wembley

By Rob Hughes

LONDON - Ricardo Julio Villa, hig and strong, often moody and sometimes magnificent, is on the horns of a dilemma no sporting lifetime could ever condition a man to cope with Lauo to his bootlaces, he is the Argentine left behind in the glare of the British

By the time you read this, Argentines and Britains could be kill-

SOCCER SCENE

ing one another in the Falklands. That, obviously, would end Villa's dream of returning to Wembley Saturday to repeat his goal-scoring heroics of the English Cup final of

Then there was no war. Then Tottenham Hotspur in particular, and Britons in general, embraced Villa with the kind of passion bor-dering on love with which sport transceods ethnic boundaries.

Hundreds of millions around the world, South Americans included, saw on television what in many ways became this one man's F.A. Cup final. The game itself was a draw, and the lingering memory was of the dark, brooding villa walking funereally toward the tunnel after being withdrawn before the game's final whistle. But he returned to triumph in

the replay. There could be oo substitute on earth for Villa four days later, as be scored twice in a 3-2 Sours' victory. His second goal was hypnotic. There are young British soldiers aboard ships in Argentine waters who still cherish the moment when Villa's muscular sixfoot frame took flight into Manchester City's penalty area and then, as if in an inspired matador's dance, meandered through three opposing defenders, drew out the goalkeeper and shot beneath him.

Instinct

We got an idea of the man's instinctive nature when be attempted to describe his goal;

"In that part of the pitch, everybody get worried and I think if I have the time, it is good. I try to go inside, but a player try to close me. So I see a chance going to the outside, and after that I try going in-side again to make the goal higger. "I can say a lot of things...But in the end I have luck to score a goal like that." The

like fantasy to go on and create against the logical odds.

the heat of the moment. Against Brazil in the 1978 World Cup, he committed an horrendous foul that could have maimed the villainous he admits. "I saw it nn TV and I say 'Ricky, what are you doing? You could break the leg.' " The murky, willful, South Amer-

Europe. "English," he explains, "play very honest. They go for the ball. In Argentina, players sometimes hur each other deliberate-

Hard Crossing

Nevertheless, he has by no means mastered the transition. The relentlessness of British soccer has found him out both physically and mentally. He has just returned from the second surgical operation nf his four years here and his regu-lar rashes of pulls and strains are as debilitating as his lapses of concentration and passion during regular league games.

He looks big and fierce, manly and competitive, yet at 29 needs to be cajoled into action. "We have to keep knocking the ball up to the big feller," says Keith Burkinshaw, the Spurs' manager, "and say, 'Right, you big bugger, get no with it.' Otherwise, be loses confi-

For 90 games out of a hundred, Villa has shrugged his shoulders at having taken second hilling to Os-sie Ardiles, the brainy little Argentine orchestrator with whom joined the Spurs in tandem. But when Ardiles flew back to Buenos Aires last mooth for his national team's World Cup preparations, Villa waited in vain for an invitation. It didn't come and, in pique, he smashed a hat-trick of goals in a league mateh.

So now Villa has oo oeighbor. Ardiles, whose linguistic ability was a crutch for his mate but whose political games Villa never played in public, is hack home.

Well, almost. His wife Cristina gave birth to a son, their second

happier times, Christina and Ricky Villa had shared the desire to produce a boy of dual nationality who might one day choose to play soccer for England.

The boy might, still, of course. But right tow, his father cannot know if his own second opportuni-ty to play in England's showpiece final will be tolerated. Last week, within days of his son's birth in London, Villa was booed every time he touched the ball during a game at Liverpool. That crowd, one of the fairest anywhere in the world, simply would not forgive

him for being Argentine. Villa shrugs and says he doesn't want to talk politics, says it doesn't hurt, says he understands. He knows, without doubt, that if the rnles were reversed, a Buenos Aires crowd would not stop short of lynching a British player.

Shaky

But his form is suffering. And although Burkinshaw — already denied the organizational expertise of one Argentine international — still wants Villa in his cup-final team, the prospect of Villa's shaking Princess Anne's royal hand at Wembley nn Saturday is not an honor that is likely to be left to him or his manager to choose.

"Whether I play him or not depends how the situation develops this week," says Burkinshaw. And he isn't talking about the normal sporting developments of a chib preparing for the cup final.

Because it would mean that the world is a somewhat more harmonious place than appears likely just now, and because of the human and sporting implications, I would dearly love Villa to be the hero again Saturday.

Ricardo Villa, left, had the better of a close encounter with Arsenal's Kenny Sansom in an English FA Cup match early this year.

Feirstein has supplied the litmus Self-Pressured Teenage Athletes Confront Burnout Syndrome Strip to tell the real from the winners to tell the real from the re came from me," she said. "I was stay nut of the gym and leave the

physically.

By Frank Litsky New York Times Service

NEW YORK -- More and more, teenagers are taking over sports to the point where 20-year-olds who have never been champions are dismissed as being over the hill. And in reaching the top, many of these athletes say the pressures that supposedly endanger them often do not exist or are self-created - that the enemy usually is oot pressure from others but from

themselves. The successful teenagers are usually female, and the new wave of their success is no more evident anywhere than io tennis. Last year, 18-year-old Tracy Austin won her second U.S. Open title in three years; Andrea Jaeger, 16, rose to the No. 4 ranking in the world; Kathy Horvath, 15, won a grand prix tournament and 14-year-old Kathy Rinaldi became a French Open quarterfinalist.

Elaine Zayak, 16, is the world figure-skating champion. The best female gymnasts in the United States are 17-year-old Julianne McNamara and 15-year-old Tracee Now, teenagers may be almost

too old. In Eugene, Ore., where MeNamara and Talayera train with Coach Dick Mulvihill, 26 of Mulvihill's 55 gymnasts are training for the 1988 Olympics. They range in age from 9 to 12 years.

Some of those preteens may make the 1988 Olympic team. Some will drop out, mainly be-

consider normal lives. No Tomatoes The pressures are always there to trap the unwary. Peggy Fleming, a world figure-skating champi-Men are those who can't dance, on al 17 and an Olympic champi-

> Hagler vs. Hearns July 15 The Associated Press

DETROIT - Marvin Hagler will defend his world middleweight title against Thomas Hearns July 15th at the Windsor (Ontario) Arena, promoter Boh Arum an-nounced late Monday. The bout originally was scheduled for May 24, but was postponed after Hearns injured a finger while

Jaeger became a tennis professional at 14. Not long ago, she up-set Chris Evert Lloyd in a tournament semifinals, and only Lloyd, Martina Navratilova and Austin

Chris or Martina or Tracy," said her father, "so there's no pressure there. The pressure comes in playing young kids in the early rounds because they're trying in make their mark by beating her." Cheryl Toussaint was the most

successful runner in the 19-year history of the Atoms Track Club of Bronklyn. She was a national girls' champion at 15, a national senior champioo at 17, a 1972 Olympic silver medalist at 19.

Sherman Chavoor, who coached

Mark Spitz and Debbie Meyer to Olympic swimming glory, shares that view. "How can you burn out physically?" he asked. "If a kid is \$ or 9 years old and eager to work out, let him swim three or four miles a day. But he's got to enjoy it or he shouldn't be doing it. Some are ready for it and some are ont." Some athletes say that mental erosion plays on the physical. "If you burn out mentally," said skater Zayak, "the physical will follow. It happened to me when I lost my national ehampionship this year. But when I went to the world champiooship, I told myself: 'If you can't do it, there's nothing you can do about it. But don't give up.' I didn't."

chological consequences.

drome with gymnastics parents," said Mulvihill. "I've heard mothers say to their daughters: "We're paying all this money. Why can't you

the first Atom to make it interna-tionally. I became a model for the the child tender loving care and younger girls. How could I face don't belittle her if she isn't per-

I learned later that it wasn't so." Fred Thompson, the Atoms' founder and coach, dismisses the notion that teenagers can burn out

"A boy plays baseball every day or shoots hoops and that's OK," he said. "But if he runs every day, that's supposed in be ton much pressure. But the little kids who run need to run. It's the best thing for them. If they learn to handle themselves in competitive situa-tions, they can handle themselves

"Burnout is only in your head. You see botshots in California at 10 or 11 or 13 and then you don't hear about them. Who's to say they would have been great at 20? When they ran, maybe that was their time to run. There was oo guarantee they would improve." Mulvihill agreed with Thomp-son. Among gymnasts, he said, burnout often results from a com-

"... And Some Are Not"

bination of boredom, which re-

duces concentration, and sickness

Many young athletes quit because of pressures from home. The stories are legion of fathers who are frustrated athletes trying to relive their youth through their youngsters - and damn the psy-

"We have Little League synwin?' I've had to tell mothers to

anybody if I didn't make the forming well. If the mother won't do that, it's time for the child to get out of gymnastics."

In 1968, at 16, Meyer became

In 1968, at 16, Meyer became the first swimmer to win three individual gold medals in one Olympies. Then the maric left.

"In 1970," she said, "I started wondering what else I could do in life, what was on the other side of the fence. I lost my desire. I found new pressures. I wondered what people would think if I lost to a 12vear-old.'

It came to a head at 3:30 p.m. on a Monday, Jan. 10, 1972. She remembered the day and the hour. Tm Getting Out'

"I was in the pool," she recalled. "halfway through practice. I said, 'Sherm, I'm getting out.' I just walked out of practice. Twelve years of my life came to an abrupt halt I was 19 years old and I had quit swimming. The fun had gone out of it. Swimming was a chore, like picking up clothes in my

She is now 29 and still lives in Sacramento. She is married to Doug Reyes, who coaches a swimming club there. She seldnm swims because she said, when she does she starts counting laps.

"People I don't know still stop me," she said, "and say, 'You're Dehbie Meyer.' 1 say, 'No, I'm Debbie Meyer Reyes.' They say, 'lt's an honor to meet you.' cringe. It must be hard for Doug to hear that.

Carol Heiss Jenkins remembers the pressure. In 1956, at 16, the baker's daughter from New York won the first of her four world figure-skating championships. In 1960, she became an Olympic champion. Now she is married to Hayes Alan Jenkins, a 1956 Olympic champ and five-time world champion, and coaches young

skaters in Cleveland. "From the time you were 4 or 5," she said, "you were used to the struggle to get to the top. You always struggled. You were sixth and you wanted to be third or fourth. Now you become world champion and you realize there is only one place you can do -

down. You're battling yourself. "You've struggled so long to get where you are that you start thinking you might ease off. You've done enough. You wonder how little work you can do and still beat the next person. I had problems at

was my last chance and I was lonking at 15 years of hard work."
In 1978, Steve Cauthen was barely 18 when he swept thorough-hed racing's Triple Crown with Affirmed. Now Cauthen is riding

in England and lives in Lambourn, southwest of London. "There was strong pressure in the Belmont Stakes that year," he said, "because we were going for the Triple Crown. You know people are depending on you. You want to do your best for every-body, including yourself.... I was

glad when the race was over." Bob Mathias and Don Schollander, each a gold medalist in two Olympics, said younger athletes might be too naive to notice the

pressure. In 1948, two months after high school graduation and six weeks after his first decathloo, Mathias, 17, became the youngest Olympic decathlon champion ever. Four years later, be won again. "There was no pressure the first time," said Mathias. "because I didn't know any better. Nobody thought l would even finish. The second time was difficult because everybody put pressure on me and 1 got

a lot of pressure from myself." "I have a theory," said Schollander, "that with youth there is a certain amount of ignorance that creates bliss. I felt more pressure win-ning one gold medal in 1972 at 22 than winning four at 15. The older nne gets, the more complex life gets and the tougher it is to maintain concentration. At 16 or 17 or 18, your world is limited."

Mariene Bauer Hagge started young and has survived. At 16, Marleoe Bauer and her 21-year-old sister, Alice, were charter members of the Ladies Professional Golf Association. Marlene, now 48, still plays the tour regularly.

"It's not necessarily easier when you're young," she said. "I had no choice, because there were no junior programs then. Maybe being young was an advantage, because I learned to mature faster. I wasn't really scared. Maybe I was too stupid to be scared.

"Everyone on the tour was nice to me, but before that, older people often resented me. They wouldn't let me play in the California amateur championship because you had to be 16. I was a scratch golfer, but I was only 12. "Wheo I won the Los Angeles

city championship at 13, I happened to turn over my scorecard 16. I didn't even enjoy winning the 1960 Olympics because I knew it allowed on the golf course.' and it said: 'Children under 14 not

Suited Up for Disaster

By Russell Baker

NEW YORK — I had a tailor make me a suit of lead.
Surely you jest," he said when I ordered it.

"My good man," said I, "you are ohviously oumh to the government's insistence that Americans gird themselves to survive the thermonuclear holocaust. A lead suit will be essential

afterwards to withstand the radiation while we rebuild the coun-

ury."
He shrugged. "It's your money. You want twin venus? Cuffs on the pants? Double breasted?"

He needed three weeks to do the joh. Mean-time I studied the civil defense evacuation plan drawn up by the government for my survival. When the red flag went up I was sup-posed to fill my gas tank, pack a lunch and drive out of New York in a town called Kehoe just south of the Canadian border.

Baker

Carrying my own lunch was necessary because Kehoe (pop: 38) had only one general store and 399,999 other New Yorkers would also be reporting there for refuge. When my suit was ready I went crosstown for a fitting. The tailor used a small crane to get the jacket

* * *

When it settled over my shoulders I buckled at the hips and knees and crashed in the floor. "You're not in such good shape for wearing a suit this heavy," the tailor said. The crane hoisted me, then lowered me into the pants. The rigid leaden trouser legs acted like leg braces and I could stand.
"It's awfully heavy," I said. "I might have some trouble walking until I get those leg muscles built

"Tell you what I'm going to do so you can get home." said the tailor, and threw in a pair of roller skates cheap. Fortunately, it was all downhill from there to home and there would have been no trouble if I hadn't collided with a hus at Hudson Street, destroying it on impact and seriously injuring

nine passengers.

The police booked me for operaing an overweight suit without a

AMERICA CALLING

GRLSOTT, Trovelers' messages, Write Box 6262, Olympia, WA 98502, USA.

license, but rather than stand trial. I decided to post bail and skip town. I didn't want the thermonuclear holocaust to catch me sitting in the clink waiting for some judge

to remember me. Fortunately, the cops had let me keep my suit when they locked me up since, as the turnkey explained, there weren't enough men in the station house to lift it, and anyhow he'd never heard of a prisoner hanging himself with a lead vest.

After making hail, I had a tow truck haul me home and hoist me in behind the steering wheel of my car and, with a cry of, "Goodbye, Gotham! Hello, Kehoe!" I turned the key and stepped on the gas. When I had the pedal all the

way to the floor and still hadn't moved more than six inches the tow-truck driver said, "You got too much weight in that car. If you chuck the coat and vest you might make it as far as the next corner without using more than five gallons of gas."

Getting only one-fifth of a block to the gallon, I figured, it would cost me close to \$50,000 in gasoline to get to Kehoe. "That's about right,' said the 10w-truck man. "Of course, for, oh, say \$1,500, I might be willing in tow you to Kehoe."

Following instructions, he delivered me to the general store in Kehoe. Ma Crowninshield, who ran it, scowled when she saw me being hoisted toward the porch. "If you're one of those 400,000 New Yorkers they're sending up here because the thermonuclear holocaust has started," she said, "I'll tell you right now, I don't put up with any muggings or that mar-ijuana grass, and I don't want any graffiti on the town clock."

* * * "Bless you, Ma!" I cried. "And you will bless me when the radia-tioo is upon us and I let you wear my lead jacket when you have to go to the well."

The hoist set me on the floor in front of her an instant before I fell through and made a crater ten feet deep in the cellar. They are good people in Kehoe and they dug me out by nightfall, and tonight there is to be a town meeting about me, The quescon is whether to house me in a town institution called The Kehoe Booby Hatch or mail me collect to the Civil Defense authorities in Washington. How quaint the rural folk are.

New York Times Service

The Wick Whirlwind

By Elisabeth Burniller WASHINGTON — Charles Washington Post Service

Z. Wick likes to travel first class. When he schedules husioess trips, he has his office tell the airlines, the car rental companies and the hotel managers that he's a close friend of Ronald Reagan's. When he appeared on a Washington talk show, he volunteered to the television staff that his suits are made for \$1,200 on London's Savile Row.

Wick is director of the U.S. Ioternational Communicatioo Agency, the global informatioo machine that is one of the most sophisticated instruments of U.S. foreign policy. In the last year, it has become a messy cauldroo of resignations and allegations. Recently the ICA ombudsman Wick appointed resigned and told an oversight commission that Wick is a bad manager and that there is fraud and corruption in the agency. Wick responded by saving that the omhudsman, multimillionaire trucking executive Ar-thur Imperatore, "had a very keen, strong disappointment that he was not accorded a position of

cy." (The commission decided the charges are so far unsubstantiated; nonetheless, they have sent to "the appropriate investigatory

running all aspects of the agen-

Gag a Minute In lighter moments, Wick is a gag-a-minute guy who was a Cleveland bandleader before he co-produced "Snow White and the Three Stooges," a movie he originally wrote for his children. People who work with him say he's enthusiastic and well-mean-ing, and add that he has put a sluggish agency back oo the msp. Wick first charged into Wash-

ington as co-chairman of the most elaborate and expensive inaugural celebration in history.

He was responsible for "Let Poland Be Poland," which was widely regarded as a political emharrassment, and at the time called it "the higgest show in the

history of the world." Some say he is Rooald Reagan's "closest friend in Washington," but it's really his wife, Mary Jane, who has he tight bond — with the first lady. They met in Los Angeles 25 years ago driving in school car pools. These days White House secre-

taries say that Wick, 64, pushes his pet projects hy relentlessly phoning the White House, and if he doesn't get results, he goes

straight to the president. "I think I was much more subtie years ago," he says, respond-ing to these stories. "But as you deal with people, you learn that you can't be just a little hit pregoant. Being nice, you can't operate. You've got to hlast through.

Blasting through may not be what would best qualify someone to serve as director of the ACA. It is parent to the Voice of Assertion. the hroadcasting arm that Jeans oews, music and commendary in 39 languages to a workpoide radio audience. Wick thinks of himself as a "rugged entrepreneur" et Unioo as "the last great preda-whose primary joh is to market tory empire oo earth." The VOA America, and says his limited Sowhite House correspondent, Phiknowledge of foreign affairs is 'totally irrelevant."

He raised \$15 million for Reagan's 1980 campaign, and acquaintances say he has told them that "I got the president elected." He has flown the Concorde twice at ICA expense, getting an exception to government guidelines, because he says he had in make tightly scheduled meetings.

Wick's desk at the ICA, a fiveminute walk from the White House, faces a huge world map. Tiny lights mark the cities with ICA posts. "Hi, fellas," he says to the lights.

Recently, having lunch in his office with a reporter and his director of public liaison, Phyllis Kaminsky, be was skittish about the press, generally because he thinks his statements about "Let Poland Be Poland" and the Rengan style were misconstrued. "My toughest problem isn't putting together 'Let Poland Be Po-land' in four weeks." he says. "The toughest thing I have is the goddamned press."

When it comes to Wick, ICA employees fall inin two groups. Many, who speak only if they are oot quoted by name, are alarmed by his ideas and what they con-sider his naive and dangerous Cold War rheutric. Others think that despite the rhetoric, or may-be because of it, he has pulled the agency out of a hackwater.
"We're in meetings oow with the
White House all the time, and we sit with the secretary of state every morning." Wick's deputy, Gilbert Robinson, says.

The ICA has always had its problems with morale, in large part because the agency, and the

VOA in particular, has an identity problem. The VOA charter is a compromise between two schools of thought, saying that the news will be accurate, objective and comprehensive," hut also that "VOA will present the policies of the United States clearly and et-Wick chose James Conkling. an old friend and a former mem-ber-of the King Family singers, as

ward trip in 1980.

Jay Luo, who just graduated from college at age 12, said he doesn't know what he wants to do when he grows up. Asked what kind of things he likes to do, what he likes to study, and similar ques-tions, his usual answer was simply—"a lot of things." He said, yes, he liked school. He kept serious and never smiled. Jay, believed to be the youngest college graduate in U.S. history, took the questions from behind a table while flanked by his proud father, mother, 9year-old sister and 3-year-old brother. Zong Luo, the father who is an electronics engineer, said Jay will begin graduate studies in mathematics at Stanford in the fall - unless it can be arranged for the family to move there in time for the opening of the summer session.

Jay was among I,462 graduates

Sunday at Boise State University.

He finished his college course in 30 months. His father was graduated by Taiwan Institute of Technology and his mother by Providence (R.L.) College. . . Mariel Aragon, who enrolled ar the University of Southern California when she was only 11 years old, became its youngest gradulate at 16. She plans to take a year doing "lab and vol-unteer work" at the Orthopaedic

memo saying that VOA must function as a "propaganda agen-cy" that should portray the Soviroom." Then Bernard Kamenske, the VOA's longtime oews editor,lomena Jurey, reacting to a Newsweek story that quoted resigned. Things have calmed, slightly,

Washington Past Service

WASHINGTON — Charles Z. Wick, the director of the U.S. International Communication Agency, is a man who likes things just so. He de-mands special attendon at all times. His staff has compiled an in-house memo of "Dos and Don'ts" for proper behavior in the company of "The Direc-

The six-page list, circulated to some agency employes, includes such guidelines as, "Do NOT think of him merely as the director of ICA.... He wants you to know, and others that he meets to know, that he is the close personal friend of the

The list, made available to The Washington Post, was written for agency staffers who take foreign trips with Wick. Wick's public liaisoo director, Phyllis Kaminsky, said that Wick had no comment on the list. "It's a total unknown to me." she said, "and I travel with him all the time." Here is a selection from the 25 "Dos" and 13 "Don'ts":

"Do NOT leave him standing alooe, unless he requests to be left alooe. At airports, receptions,

meetings, keep him occupied."

"Do NOT have security personnel at embassies or elsewhere ask him to identify himself. He expects that arrangements will have been made to pass him through without hesitation and that the right people know who he is." Do NOT overwhelm him with papers and

other materials before meetings. He expects that all this should have been provided earlier."

"Do NOT hand him any cable or material which you have, yourself, not read thoroughly or for which you do not have staffed-out responses, . . . Cables and memos should have major points

accented with yellow, fluorescent marking pen."

"Do NOT smoke in his presence." . "Do NOT let Mrs. Wick be stranded. The security personnel will be pushing and rushing the Director oo ahead. She often gets left behind. Al-

ways be certain that her needs are being taken careof also. He will observe how attentive you are to her

· "DO treat the Director and Mrs. Wick with extra courtesy. The Director sincerely appreciates the smallest kind of attention—the sudden gesture to help him or Mrs. Wick with their coats, assisting with their hand luggage, seeing that they have copies of English-language newspapers, seeing that cof-fee or tea has been requested, that a fuss is being made over where they sit, etc."

"The Director lives by the telephone. Establish early on where and how he will be able to make important phone calls."

 "Know where he can get a haircut. For Mrs.
 Wick, the best and fastest beauty salon. They are both concerned about their own as well as others'

appearances."

"Long, uninteresting conversations turn the Director off, so keep things lively. . . Sharp, catchy phrases that grasp the point are what he likes to hear. . ."

· If you make a mistake, admit it, apologize and let it go. . . If be becomes anery don't increase his aggravation by arguing or by trying to excuse the mistake or error or foul-up."

The Director is a vigorous, fast-moving man, who wants quick action. Everything should have been done yesterday. If something needs to be done it is better to get it done right away and oot to assume you will have time later. The Director will have thought up several other serious items have have thought up several other action items by

 "As vigorous as he is, he must also rest, Heavy schedules will tire him out. At that point, he may become inattentive, impatient and short with you. Help him out. Keep checking to see if he is fatigued and try to find out ways to resolve the problem. Shorten the meeting, pick up the hurden of discussion, give him a break, etc."
